

ESTABLISHED FORTY YEARS.

TUCKER & SON'S

IMPROVED

INDIAN LAMPS

MANUFACTORY

190, STRAND, LONDON

The advantages which T. & Son offer to the Indian Public are the result of a thoroughly practical knowledge of all the requirements of the Indian Trade, acquired during Forty Years' Experience as INDIAN LAMP MAKERS

T. & SON'S Improved Indian Lamps combine elegance and strength, with every recent improvement that tends to simplify their construction, and to enable *Native servants* to manage them, and to reduce the liability of glasses being broken. They give a brilliant light with any of the *Native Oils*, (such as Mustard oil) as thoroughly protected from *Insects*, the draught of the *Smoke*, and of *open windows*.

T. & SON have two large Show rooms (60 feet long) in which the Lamps are exhibited, which is next a *Picture Gallery*, and in which the Lamps are exhibited, just as they are in the *Picture Gallery*, and in which the Lamps are exhibited, just as they are in the *Picture Gallery*, and in which the Lamps are exhibited, just as they are in the *Picture Gallery*.

T. & SON make all the various kinds of Lamps used in India, such as Table and Hanging Lamps, Bracket Lamps, and Candle branches for the wall. Also all the various kinds of Lamps of all kinds, either in Bronze, Gold, Silver, or Crystal Glass. Also all the various kinds of Lamps of all kinds, either in Bronze, Gold, Silver, or Crystal Glass.

REGIMENTAL MESS LAMPS

With one or two burners, and packed up compactly in partitioned Travelling Cases.

Although the superiority and extreme portability of T. & SON'S Improved Indian Lamps are well known to gentlemen who have resided in India, they are requested to read the subjoined

C AUTION—WHEREAS there is a shipping Wines to London marked with a crown in imitation of CHILLINGWORTH & SONS' WINEs, which we brand with a crown, they having the appointment of WINE MERCHANTS to His Majesty's QUEEN'S VINE, it is deemed expedient for the protection of dealers and consumers of their superior Wines, selected from their extensive and valuable stock expressly for this market, who have so well known and approved their wine for the last twenty years for their extreme quality and purity, combining this in softness together with great body and vigour, that we must more free from a duty or drawback than any other Wines, to merit all purchasers to ask for CHILLINGWORTH & SONS' CROWN SHIRAZ and other WINEs, and to be particular in observing that the Cases and Casks in which we brand with their names, at full length, also on the side of the Casks, mark the bottles as well as the crown and also on the seals in accordance with the holding of this notice as a necessary precaution to ascertain that they are really CHILLINGWORTH & SONS' Crown Wines, in order to prevent a common class of Wines being impudently foisted in the public, in which are in no way to be compared with those of CHILLINGWORTH & SONS.

The Bombay Advertiser, AND COMMERCIAL GAZETTE.

As its name imports, this Paper is a medium for the publication of ADVERTISEMENTS ONLY—it is not a Newspaper. It is issued TWICE A WEEK on the mornings of MONDAY and THURSDAY and TWO THOUSAND FOUR HUNDRED COPIES are circulated GRATIS weekly. In the Presidency Town of Bombay it is very freely distributed.

And it should be found requisite the number of copies issued will be still further increased.

It is now our duty to enlarge on the advantages which a Publicity entitled the ADVERTISER offers to the Commercial and General Public of the Bombay Presidency. It may suffice briefly to state the following:—

- 1 Being exclusively devoted to Advertising, it is especially sought and consulted by those requiring the information which it supplies.
- 2 Having a numerous circulation nearly equal numerically to that of all the Daily Newspapers of Bombay, while, as most of these go into the same hand, it will in effect have a much larger number of readers than the ADVERTISER in itself forms a vehicle of communication the most desirable of any.
- 3 Being unaffected by the preferences and prejudices, professional or personal which influence the distribution of a Newspaper, the ADVERTISER addresses itself alike to all classes, and is equally distributed over all parts of the Presidency, in the Civil Station, the Military Cantonment, and the Commercial Town.
- 4 As the Scale of Charges is based upon that now adopted by the Daily Newspapers, to the other advantages offered by the ADVERTISER may be added that of embodying all those afforded by advertising in the other Papers, and at a greatly reduced cost.

The lamp burns any kind of vegetable oil, and gives the light of six candles at a cost of one rupee for a cut-glass lamp."

A rough sketch and faint illustration of the lamp is addressed Mr J B Williams, at Jubbulpoor, or Tuclees, Secunderabad, and may be obtained of the Agents named below.

ADVERTISEMENT.

The Publisher of "THE BOMBAY ALMANACK AND BOOK OF DIRECTION" has the pleasure to place his eleventh annual volume in the hands of his Subscribers with the punctuality for which the work has been so long distinguished. It is hoped that the present edition will be found fully equal or even superior to any that has preceded it, both as regards the quantity, quality, and general correctness of the information supplied.

In the present issue of the ALMANACK room has been made for an extended and carefully-compiled Chronological Register of the principal events (English, Indian, and Foreign) of the past year, which will doubtless be found interesting and useful. A corrected statement of the war services of officers of Her Majesty's Home Troops serving on the Bombay establishment has also been inserted, as well as the usual record of the services of officers of the local army. Among minor additions may also be mentioned a list of the vessels composing Her Majesty's Indian Navy, with their armament, tonnage, officers, &c. ; the Rules of the Bombay Medical Retiring Fund ; and a Guide to the Coast from Bombay to Cochin, compiled for the use of those who may avail themselves of the opportunities now afforded of visiting the ports and places therein described.

The portion of the work relating to Bombay has been thoroughly revised and considerably extended. Great pains have been taken to render the List of Inhabitants complete and correct : it is believed that it will be found more trustworthy than any before issued.

A special Index to all the names in the usual elaborate Army List of Bombay will be found at pages 299—310, the figures in which, it should be observed, refer to those at the *foot* of the Army List pages, those at the head being a continuation of the paging of the Almanack itself.

The Publisher takes this opportunity of returning his sincere thanks for the very liberal and constantly increasing support he has received, and of assuring his numerous Subscribers that he will spare no effort in future years to merit a continuance of their patronage.

The Calendar

FOR

1860.

THE Time given in this Almanack is Bombay Mean Solar Time, or that which a well-regulated Clock ought to show.

The time of Sunrise and Sunset shows the instant at which the centre of the visible Sun is on the visible horizon of Bombay. In calculating the effects of refraction and dip of the horizon, the Barometer has been assumed to be 29·8 in., the Thermometer 80° Fahrenheit, and the height of the observer 15' feet above the level of the sea.

The time given as the Moon's Age is the period which has elapsed since the Sun and Moon were in the same longitude at Bombay.

The time of High Water has been calculated from Tide Tables prepared at the Colaba Observatory.

ECLIPSES.

During the year 1860 there will be two Eclipses of the Sun and two of the Moon ; but the Lunar Eclipses only will be visible at Bombay.

INTRODUCTION.

The only explanation which is conceived necessary, to render the scheme of the following Calendar fully understood, is that the Christian months indicated at the top of each page divide the Native months as they appear represented in the space below allotted to their names. January, for example, partakes of the Hindoo monthis (Marroo) Poush and Maugh; (Guzerit, Duxun, and Concan) Poush and Maugh; (Malabar) Dhanuh and Magaram;—the Parsee months (Shaenshoyee) Teer and Amoordad; (Kudmee) Amoordad and Sharaver; and the date of Nowroz 129 to 159;—the Mahomedan months Jumadee-ul-aval and Jumadee-ul-akhur;—and the Jewish months Tebbett and Sh'bbatt.

In the respective columns the 1st of January corresponds with the 8th of Poush Shood (Marroo, and Guzerat, Duxun, and Concan); the 19th of Dhanuh (Malabar); the 9th of Teer (Shaenshoyee); the 9th of Amoordad (Kudmee); and the 129th day of Nowroz or Kudmee; the 7th of Jumadee-ul-akhur (Mahomedan); and the 6th of Tebbett (Jewish); and so on throughout the year.

PARSEES.—There are at present two branches of the Parsees, who differ in their reckoning of the Calendar one month in the year from each other; those that are one month forward in their year are styled Kudmees, and the rest Shaenshoyees. The present scheme embraces the Parsee Era of Yezdezerd, commonly styled Kudmee or Dureayee Nowroz, or sea reckoning, the same being made use of in all nautical calculations among Asiatic mariners, the New Year of which always commences on the 1st of Furverdeen. The Kudmees reckon the New Year and the Dureayee Nowroz to fall on the 25th of August, one month earlier than the commencement of the Shaenshoyees' New Year. It also embraces the Parsee Era of Yezdezerd, commonly called Shaenshoyees' New Year, of which generally begins on the 1st day of Furverdeen. The Shaenshoyees compute the New Year to commence from the 24th of September, a month later than the commencement of the Kudmees' New Year.

HINDOOS.—It may here be observed that the Hindoo Lunar months invariably consist of 30 Tithees, or Lunar days; and the whole month is divided into two equal parts of 15 Tithees each, the one called Shookla Puksh, or Shood, the bright half or increase of the Moon, the other the Krishna Puksh, or Vud, the dark half or decrease of the Moon. The Lunar month begins, on the Western side of India and South of the Nurbudda river, with the first day of the Shookla Puksh (Shood Prutipuda), or bright half of the Moon. At Benares, Oojin, and the countries North of the Nurbudda, the Lunar month begins with

the first day of the Krishna Puksh (Vud Prutipada) or dark half of the Moon. The first is designated the Shookladee mode of reckoning; and the latter the Krishnadee. The Lunar year begins with the first day of the Shookla Puksh, or bright half of the Moon in Chytru, both North and South of the Nurbudda, in every country in India; but as the dark half of the Moon precedes the other, or Shookla Puksh at Benares, the half Lunar month of Chytru is taken from the last Lunar month of the year preceding, and considered to belong to it.

It has been already stated that the Lunar month invariably consists of 30 Tithes or Lunar days, but it has been customary with all Eastern nations, in order to regulate their Feasts and Festivals, to drop certain Lunar days, and to reckon others twice to make up the deficiency; the first of these are termed by Hindoos, Kshuyu Tithes (perishable days), and the days repeated twice are called Virdh Tithes (additional days). The rule of these is exceedingly simple; those Lunar days on which the sun does not rise (Sooryoduyu naheen) are struck out; those in which it rises twice are Virdh, or additional; and it is obvious that such circumstances will occur about six times in the course of the Lunar year.

MAHOMEDANS.—The first day of the Mohurram, or the commencement of the year, is ordinarily reckoned from the first appearance of the Moon after the conjunction, observed from an eminence of any sort, or even in cloudy weather from the time at which, but for those obstacles, it would be visible; and this can scarcely happen earlier than 24 or later than 48 hours after the conjunction. After this manner each separate month is reckoned, and the lapse of 12 such months constitutes the Mahomedan year.

JEWS.—The Jews have ever marked their time by *sevenths*, according to the command given by God himself, for labouring during only six days of each week, and resting on the seventh, which was consequently set apart, or consecrated, to the service of their Creator. They not only hallowed the seventh day, or **SABBATH**, which formed a portion of their *week of days*, but they had, also, their *week of years*, which consisted of seven years, and their *jubilees*, or rejoicing periods, which were celebrated by many acts of justice, forgiveness, and restitution, at the end of every *week of seven times seven years*. The Hebrews, the Assyrians, Egyptians, Arabians, and Persians, all had this custom of reckoning by weeks. The origin of computation by *sevenths* has been vehemently contested by some authors, who say that the four quarters or intervals of the Moon (the *phases* or changes of which are about seven days distant) originally gave occasion to this mode of division. But it seems more reasonable to conclude that it arose from the traditional account of the *first seven days* of the world's existence.

We have endeavoured to discriminate the Feasts and Festivals of each nation by different sorts of type; the Hindoo, for example, we have distinguished by Roman small letters, as Poush Shood; the Malabar and Jewish by Roman capitals, as MAGARAM; the Parsee by small capitals, as AMOORDAD; and the Mahomedan by Italic small letters, as *Mohurram*.

Native Festivals, Fasts, and Observances.

HINDOO.

MUKUR SUNKRANT.—On this day the sun enters the sign "*Mukur*," or Capricorn. —Vide 12th January. The Hindu festivals are so numerous, and the observances of them are so intricate, that they often bewilder a writer when he sits down to describe them. And it is equally difficult to point out which of the festivals is the greatest. The writers of the Hindoo legends have set such enormous merit on the observances of each of them, as to surpass all human comprehension; and they have ever unhesitatingly said that those observances themselves will obtain heaven. Great rejoicings are held among the Hindus, but particularly among the Brahmins, on account of the feast of *Mukur Sunkrant*, when the sun reaches the most southern sign of the Zodiac, *Mukur* or Capricornus. From this day till the time of his leaving the most northern sign of the Zodiac, he is said to be in *Utarrayan*, and from the time of his leaving the northern sign to the entering the sign "*Kurk*" or Cancer, he is said to be in *Dukshanayan*. The vernal and autumnal equinoxes divide the year into two equal parts, *Utarrayan*, and *Dukshanayan*. The days of *Utarrayan* are esteemed lucky, and those of the *Dukshanayan* unlucky. During the days of *Dukshanayan*, it is said that the gates of heaven are shut, and in the *Utarrayan* they are open. For men to die in the *Utarrayan* is considered more blessed, because they get immediate entrance into heaven; but if the righteous die in the *Dukshanayan*, they shall have to wait outside of the gates till the *Utarrayan* sets in. In the days of *Utarrayan*, Moonj—the ceremony of investing the youths with the sacred cord—and marriages are celebrated. The ceremonies that are solemnised on the day of *Mukur Sunkrant*, just at the time of the sun's entrance into the sign, are these—The Hindus go to the sea, accompanied by a Brahmin priest, to bathe; those who rub their bodies with *tillas*, and wash themselves in the manner prescribed in the Shashtra. The Brahmin then repeats certain incantations suited to the occasion, and closes the ceremony by receiving due adoration, and a present of money for himself. On their return home they invite Brahmins, present them with a cup of bell-metal, filled with *tillas* and some money, according to the ability of the *Yezdman*. Some even present the Brahmins with copper pots, new *dholurs*, umbrellas, &c. and the whole family receives benediction from them, which is done by the Brahmins repeating certain words, and throwing on their heads a few grains of red coloured rice. After the performance of this ceremony they go to take their meals, which consist of sweetmeats. They invite their friends and relations to dinner; and towards evening they wear new clothes, gold, and other ornaments, and frequent the houses of their friends and relations, distributing *tillas* mixed with sugar. At the time of putting the *tillas* into the parties' hands, they repeat these words "Receive these *tillas* mixed with sugar, and be friendly with me throughout the whole year." All the praise and prayers that are offered this day are to the Sun, and to no other god. The second day of Sunkrant is named *Kur*, which is generally celebrated by women, by making small presents among those of their own sex.—Vide 12th January.

WUSSANT PANCHAMEE seems to have been instituted in honour of the Spring, which season is personified under the name of *Wansanta*, who is fabled as attending on *Camu*, or the god of love.—Vide 28th January.

RTHSUPTEWEE is dedicated to the worship of the Sun. This day is the beginning of the *Manwantara*, or period embracing the reign of *Munoo*, of which fourteen govern in succession, during the different ages of the world. The present age is under the dominion of the seventh *Munoo*; and at the commencement of this period a new sun is supposed to have mounted his chariot.—Vide 30th January.

SHEWKRATREE—A fast-day in honour of *Sheva*, during which the *Linga*, or *Bacchiphallus*, is worshipped.—Vide 26th February. *Vud Chuttoordasse*, or the 29th of every month, is kept sacred by the votaries of *Sheva*; but *Magh rad* (*Chuttoordasse* has obtained its peculiar epithet, *Maha Sheva Ratree*, or the great night of *Sheva*. The Hindu legends account in the following manner for its notoriety among the rest of *Sheva Ratrees*:—In time immemorial an archer of wicked and licentious habits went into a forest this day, to shoot deer. He spent the whole day in the pursuit of his game, and, on a sudden, night came on, and he was left to the mercy of wild beasts.

* *Tillas* are said to be the favourite grain of the Sun.

When he found himself in such a forlorn condition, he had recourse to a *Bale* or *Bilva* tree* to secure himself from their attack. Having got upon the tree, by way of relaxation, or to get a clearer view, he broke off all the branches that hung around and above his head, and flung them down: fortunately the twigs which he threw fell on the *Linga* of Sheva, which was near the foot of the tree. Sheva was so much pleased and satisfied by the accidental worship of his votary, that he forthwith sent a *Veman*, or heavenly chariot, and took the hunter into *Kylas*, his own abode, with acclamations of joy. To commemorate this great event of the entrance of the archer into Kylas, the Hindus observe a fast this day, and worship Sheva in hopes of obtaining a like merit. Observance of *Sheva Ratree*:—This day the votaries of Sheva fast, and in the night, repair to the temples of Sheva, accompanied by a Brahmin priest, who performs pooja by repeating certain incantations: first he pours some water over the *Linga*, and washes it, and afterwards he decorates it with choice flowers. When this is done, the priest takes his sacred book, wherein Sheva's thousand different names are written, and reads the names: and the Yazaman, the worshipper, flings a leaf of *Bale* over the head of the *Linga* each time. This kind of pooja is performed four different times during the night, and thus no sleep is obtained for the whole night. This is styled the pooja of the four *Praharas* or watches. It commences at about eight p. m., and ends at five a. m. This night the pagodas of Sheva are thronged by devotees. Some persons engage twelve Brahmins, and others four, &c., to perform the pooja, according to the abilities of the Yazaman. The Brahmins must be liberally paid for their labours.

HOLEE (SANSKRIT—*HOLIKA* or *PHALGUTSIVA*).—This festival, called also *Doluwastra*, or the swinging festival, is supposed by Sir W. Jones to relate to the vernal equinox, and to be similar to the Persian Nowroz. It commences fifteen days before the full moon, on which the ceremonies are terminated, and is held in honour of *Kristna*. In the freedom with which the lower classes now behave towards their superiors, this festival resembles the Roman Saturnalia; and in the sending people on bootless errands, it corresponds with our 1st of April. Red powders are daubed upon the image of the god, and thrown and squirted by his worshippers on each other, while females are saluted by exclamations and jests of no very chaste description. The wheaten cake, which is placed on the pile lighted at the close of the festival, is called *pollee*, and the right of first offering it in a village is considered as an honorary privilege. Neither the origin of this festival, nor the manner in which it is observed, can be described. Nor is this manner of observing it confined to the lower classes of the native community—the highest apparently joining in it with the same zest as the lowest. This festival nominally continues from the new to the full moon; but only a few of the last days are practically and openly devoted to it. For two or three days no respectable women appear in the streets, so obscene and abusive is the language in almost every one's mouth, and applied to any woman that they may happen to see. It is often called *Shinga*, from the name of the month in which it occurs.—Vide 7th March.

THE HINDOO NEW YEAR (Shalivahan, called *Goodee Padwa*).—On the morning of this day a Hindoo first rubs oil upon his body, and then bathes himself with warm water. A pole bearing a flag, and surmounted with a brass or copper vessel, is erected in front of the house. One such pole must be erected by each family. This represents the banner of Indra, the king of the gods, which on this day is also raised in honour of him by the gods. What is done here on earth is therefore in imitation of what takes place in the heaven of Indra. The leaves of the bitter nim tree are then to be eaten, which secures health to the body, because this tree is the offspring of the Ambrosia of the gods. The Almanack for the New Year is then to be worshipped, and its predictions, in regard to the year just commencing, are to be heard from the mouth of the Jotishces. They tell whether there is to be an abundance or a scarcity of rain, whether there will be unusual heat or cold, whether robberies, insurrections, &c., are to abound, whether unusual sickness is to prevail, &c. &c. Each individual on this day also learns what he is to expect during the year; whether health or sickness, prosperity or adversity, is to be his portion, &c. &c. All this important information is not, of course, to be obtained without some compensation. And not only are presents to be given to the Jotishces, but the poor people are taught on this day to extend their liberality also to the Gooroos and Brahmins. The day is also to be celebrated by feasting. This is considered an auspicious day for commencing a new building, or engaging in any new undertaking.—Vide 23rd March.

RAM NOWMEE.—On this day Ramchundra, the 7th incarnation of Vishnu, was born at *Ayodya* or *Oude*, about B. C. 1000.—Vide 31st March. Rama is supposed to be the same as the Grecian Dionysius or *Bacchus*, and the object of the incarnation was to effect the destruction of *Rawun*, the ten-headed tyrant of *Lunka* or *Ceylon*, which was at last done with the assistance of *Hunooman*, the chief of the monkey tribe. The

* A favourite tree of Sheva's, and which is held sacred among the Hindoos.

birth of Rama is, strange to say, celebrated eight days previous to its occurrence, that is, from the first of *Chytra Soodh* to the ninth. From the first day the temples of Rama are whitewashed and illuminated in the evening, and the image of Rama is adorned with costly ornaments. In the evening the *Kavayan*, or the sacred legendary history of Rama, is read in the temples, and in the night *Keertan* is preached by the *Hurridass*, who describes the morality and heroic actions of Rama. Nautches are also not omitted during the nights. In some temples Brahmins are fed with a rich and substantial dinner for eight successive days; these days are denominated *Rama naoratra*, or nine nights of Rama. During these days, many Hindus, both males and females, go to the temples of Rama to hear the *Keertan* and *Puran*. The last or principal day is *Ramnavmee*, when, it is said, Rama became incarnate at noon. In honour of this incarnation, the Hindus fast the whole day. They get up in the morning, wash themselves, and put on rich clothes and ornaments, and repair to the temples of Rama at about nine o'clock. Every temple of Rama is well furnished this day, and images are decorated with precious ornaments and rich brocade. A *Hurridass* is engaged to describe the birth and circumstances that attended this incarnation. He continues his prattling till twelve o'clock, when he brings a small image of Rama, nicely ornamented and well clad, and shows it to his audience, and tells them that it is Rama who became incarnate; and puts it into a small cradle prepared for the purpose. The assembly then throw themselves prostrate before the image and worship it. Great is the rejoicing and acclamation of the assembly on this occasion; they fling *gold*, a red powder, on each other, and with great mirth about one o'clock they return home, and again go to the temples in the evening. The feast of *Ramnavmee* is more particularly observed by the votaries of Vishnu.

VID SAVITREE (SAVITREE VRIJA).—A fast observed by women at the root of the *Juh* a fig tree, to preserve them from widowhood.—Vide 3rd June.

ASHVINY EKADASHEE is the eleventh of the light half of the month *Ashad*, and is dedicated to Vishnu. On this day, which refers to the summer solstice, commences the night of the gods, during which the deity reposes for four months on the serpent *Seshu*.—Vide 20th June.

NAG PRICHAMLE is sacred to the demi-gods in the form of serpents. Ceremonies are performed on this day to enure protection against the bites of snakes.—Vide 22nd July. The serpent *Kalaga*, slain by Krishna, is worshipped at the festival, as was *Pagham*, at Delhi.

SHRAWEN OR NARVOLL (OR NARULL) POORNIMA.—On this day the rainy season is considered to be at an end, and a coconut is offered up to the sun to gain its favour towards those who now begin to trust themselves to it.—Vide 1st August.

JANMA OR GOKUL USHTUNI (JANMA ASHTUMEE).—Instituted in commemoration of the birth of *Krishna*, which took place at midnight in the city of Mathura. Krishna, who in many respects agrees with the Grecian Apollo, was the object in incarnation of *Vishnu*, in which, according to a large sect of Hindus, was manifested a greater portion of divinity than in any of the preceding ones. His uncle *Kouru*, who, it was predicted, would be slain by one of his own family, endeavoured to ensure the destruction of the infant god, by placing guards on, or his pregnant sister; but the child was preserved from this and other attempts of his relations, who subsequently gave directions for the slaughtering of all newly-born infants.—Vide 9th August. This holiday is considered one of the greatest among the the Hindus, and is therefore observed by almost all the Hindu community; there are two sects among the followers of *Krishna*, and they solemnise the feast on different days. Those belonging to the one keep the birth-day of Krishna on the eighth day of the dark moon, and those belonging to the other, the day following, being the one on which he was removed to *Gokul*, to the house of Nanda, through fear of his maternal uncle, who sought his destruction; and some even keep both days. The former fast on the day of *Janma Ashtuni*, and the latter on the day of *Gokul Ashtuni*. They fast the whole day, and at night they bathe, and worship an image of the infant *Krishna*, adorning it with *tulsi*, a favorite plant of *Vishnu's*, and with other flowers, in the manner enjoined in the *Shastra*; and at about ten or eleven p. m., they eat their *Palehar* food, which consists of fruits and some kinds of grain, being prohibited from eating rice and other grains that day. A Brahmin is called in to perform the *pooya*, and afterwards he himself is worshipped, and sent away loaded with *Dakshina* and other presents. This is all done according to the rules of the *Shastra*. The holiday is thus observed among the people of the higher castes. On the day of *Gokul Ashtuni* *gouties* (or keepers of cattle) keep a great jubilee among themselves, as Krishna was bred up among their race. They join themselves into a company, and frequent the houses of the people who follow their profession, holding each other's hands, dancing in the street,

and repeating these words, "*Govinda, Govinda*," where they are honoured either by throwing over them curds, or presenting them a certain quantity of curds. These people are called *Gopalls*—protectors of cows. But the most extraordinary thing relating to this festival is the following:—On the night of *Jurma Ashtumi*, crowds of people, generally of the lower ranks, flock into the temple of *Canoba*, which is commonly known by the name of *Muth*; there they hire native music, and continue shouting and making a great noise, so as to deafen one's ears. The *Bhugat* of *Canoba*, or the head of the temple, who is very often of the *Shudra* caste, and who is considered a supernatural being, at least at the time, with great solemnity and grave countenance makes his way through the assembly and stands before the shrine of *Canoba*, and offers prayers to the idol of *Canoba*, which is richly decorated on the occasion, accompanied by the playing of tom-toms, and acclamations of joy from his disciples. He is at first quite calm, but shortly after shows signs of inspiration by the god. He begins to untie his shendi, or the tuft of hair on the crown of his head, and then slowly shakes his limbs. By degrees his whole frame quivers, and he throws his whole body into violent contortions, dancing and muttering strange ambiguous and wild sounds, which no one can understand. He then takes his scourge, which is kept near the shrine, and scourges himself as if he were insane, and performs many other equally strange actions. No sooner does the assembly around see him in this predicament, than, believing that the spirit of the god has entered into him, they burn incense before him and fall prostrate, and pray to him to be merciful to them. When he has received divine homage, he quietly takes his seat, but does not cease quaking and trembling. His disciples, who are always near him, then commence, one after another, to shake themselves and dance in the same way; and the spirit of the god is believed to enter them also. This day the great *Bhugat* can create new disciples, and give them the power of bringing the spirit of the god into their bodies. Sick persons, persons possessed of devils, children, &c., are brought to the temple to receive the benediction of the *Bhugat* and his disciples; he rubs a little ashes on their foreheads, passes his hand over their heads, and gives them full assurance of their speedy recovery from their sickness without taking any medicine. The poor patient, with full confidence, returns home, expecting the fulfilment of the *Bhugat's* promise; but probably, to his great disappointment and distress, he gets worse, or is perhaps cut off next day. It is a great wonder, notwithstanding such disappointments, that the eyes of the ignorant are not opened to see the impotency and imposition of the *Bhugat*, for they still remain as faithful to him as ever. It is the subtlety of his speech, and the dexterity of his actions, that delude them. The *Bhugat* receives large presents on this occasion from the followers of his tenets, and he is held in great respect among the orthodox Hindus, and even among persons of some other tribes. On the following morning the *Bhugat* collects the circle of his disciples in front of the temple, and orders a sufficient quantity of curds to be thrown over their heads to wet their whole bodies; they all begin to dance in company, holding each other's hands, and occasionally throwing themselves on the ground and besmearing their bodies with mud, shouting as loudly as they can. The *Bhugat*, in the mean time, with a scourge in his hand, forces his way into the crowd with all his pretended dignity, and stands in the midst of the crowd, and looks in all directions in his feigned solemnity, and then lifts up his powerful scourge and puts it around the neck of one of his disciples as a token of his regard, and draws him towards himself, when the disciple trembles a little, and then stands firm, stretching his hands towards the sky, with his eyes closed. No sooner does the *Bhugat* see him in this state, than he scourges him two or three times so adroitly that it gives him no pain, while to the eye of the spectators it appears a prodigy that he does not feel it. This is repeated till he has shown the same mark of approbation to the whole body of his disciples, when he ceases, and sweetmeats are distributed among the disciples and to all the spectators. Thus terminates the feast of *Gocul Ashtumi* among the people of the *Shudra* caste.

PITHOOREE, OR PRACHEEHIEE AUMAWASTU.—A ceremony observed at the new moon of the month *Shrawan*, at which the 64 Yoginees, or female attendants of the goddess Doogan, are worshipped, particularly, it is said, by women, with the hope of obtaining issue. —Vide 16th August. The 30th of the month of *Shrawan*, or the last day of the dark half of the moon, is denominated "*Prachee Aumawastu*." *Prachee* is, it is supposed, one of the goddesses of the East. She is commonly known among the people of the Konkan and Decan by the name of *Pethooree*. Wealthy Banians and other people of Guzerat go to Walkeshwar on the previous evening with their families, to remain in the *Dhurrumsalla* during the night; and, on the subsequent morning, they bathe in the tank of Walkeshwar. (This tank is called by the natives *Ban-gunga*, i. e. the Ganges produced by an arrow; and they give a marvellous account of its origin. They say, when *Rama* visited this part of the world, and found that there was no pure water to drink, he pierced the ground with an arrow from his bow, and thus brought the Ganges into existence.) They also perform

Shraddhas on the margin of the tank, and ceremonies for procuring the deliverance of their departed ancestors from the thralldom of *Yama*, the king of the infernal regions, if they still remain at his court or in his dominions. They afterwards repair to the temple of *Walkeshwar* and worship his image, after which they take their meals. The remaining part of the day is spent in amusements, among which gambling is overlooked or neglected. Booths are erected in the locality of the temple, and furnished with all kinds of the choicest articles that please the fancy or delight the taste. The Hindus on this occasion squander away hundreds of rupees in hiring vehicles, and buying toys and sweetmeats for their children. This holiday is not observed by the majority of the inhabitants of the Konkan and Decan. It is kept up chiefly by those women who lose their children in infancy. They fast this day, and worship an image of *Pethooree*, by adorning it with various kinds of fruits and flowers, through the medium of a Brahmin priest.

GUNESH CHOUTH, OR CHUTTHOORTEE—On this day was born Gunputtee, or *Gunes*, who is considered as the god of prudence, and invoked, like Janus, at the commencement of all undertakings. The manner of his birth is differently told : one story relates, that as the god *Kartikeya* was created by Shiva without consual assistance, in like manner *Gunputtee* was formed by his consort *Parvatee* from the turmeric and oil scraped off from her own body while bathing. The loss of his human head, and the substitution of that of a female elephant with one tusk, is also variously explained. By some, his head is said to have been cut off by Shiva when he endeavoured to prevent the god from entering the chamber of *Parvatee* when performing her ablutions as above. According to other accounts, it was reduced to ashes by a glance from the eyes of *Shance* or *Sacra*, when all the gods went to look at the newly-born child, and its place supplied by that of the animal first found, which happened to be an elephant. Clay images of the deity are formed, and after having been worshipped for nine or ten days, are thrown into the water. The *Chinchore* or *Chinchind* (properly *Deo*) who resides at the village of that name near Poona, is supposed to be an incarnation of this god, who granted to a holy *Gosayeem*, who had won his favour, that the divinity should be continued in his family for seven generations ; and though the present one has exceeded that limit, the miracle is perpetuated by the Brahmins for self-interest. — Vide 20th August. It is commonly said among the Hindus, that the *Shashtra* enjoins its followers the worship of *Mitica* (earth) in the following forms, three times a year : The first of these is *Nayannuchnee*, on which day a snake of clay is made and worshipped ; the second is *Gokul Ashtami*, when a clay image of the infant *Krishna* is made and worshipped ; and the third and last is *Gunes Chutthoortee*, on which day a clay image of *Gunes* is worshipped. This being the last day of the worship of *Mitica*, it is observed with greater pomp and more ceremonies, conviviality, and music, than the two others. The image worshipped on this occasion has four hands and an elephant's head. The mouse, being *Gunputtee's* favourite vehicle, is also placed near his image, richly saddled and bridled. Besides this the worship of *Gunes* may be traced to his origin. But different accounts are given in different *Purans* of that origin, and the consequent introduction of his worship, which it would be rather a difficult task to detail. The image of *Gunputtee* is either made in the house or purchased from an artist ; it is gilt with the finest gold, and painted with superior and variegated colours. much labour and ingenuity is bestowed on it by some to render it elegant and attractive, according to the taste and pecuniary means of the worshipper. The 4th of the month of *Bhadrabad* is the appointed period for the celebration of this feast. On the previous day the worshipper cleans and whitewashes his house, and furnishes it with all sorts of costly furniture that can be procured. The profusion of light is the first thing that would attract one's eye. On the following morning, *i. e.* on the day of *Gunes Chutthoortee*, they bring the image home (if it be bought) with great splendour, accompanied by native music, and with all the honours of a god. A place where the god is to be seated is prepared, either in the form of a covered shrine or open space, which is adorned with all kinds of fruits and flowers strewed round it, and twigs of trees hung over in clusters ; after which commences the business of the officiating priest, who sits near the master of the house and begins consecrating the idol, by reciting incantations or *mantras* from his book, and throwing over it red coloured rice ; thus after performing many conservative ceremonies, he brings from heaven the godhead into the image on earth. Being thus installed, the devotee places before him *Nayavedh* food, which consists of sweetmeats, and invokes the god to partake of the offering. Afterwards he falls before him, and prays him to be gracious to him and his family. To perform the whole *Pooja* according to the rules of the *Shashtra*, requires at least three or four hours' time. By the generality of the people, *Gunputtee* is kept one day and a half ; but by some five or ten days, according to the wealth and wish of the proprietor. A discourse is delivered in commemoration of his godly exploits by a *Haridissa* in his presence, to which friends and relatives are invited to attend. A large party of Brahmins, are entertained at a sumptuous dinner, in honour of *Gunes*, and they are then dismissed with the usual *Dakshina*. On the last day preparations for his departure are made. Evening is the appointed time for parting, when the master of the house per-

forms *Ooterpūja* through the priest, who takes away the divinity with which the image was invested by repeating certain *mantras* or charms : flowers, fruits, and sweetmeats are offered to the idol, and *arlee*, that is, lighted wicks, are moved before him, accompanied with music and hymns ; and he is invoked to bless the owner and his family, and remove any calamity, that might befall them throughout the year. Afterwards the Brahmins are presented with *Dakshina*, and the image is seated in a palanquin, or in an ark expressly made for the purpose, adorned with fresh flowers, and carried to the sea or tank in procession, which consists of the master of the house, his children, and relatives, who are richly attired on the occasion. When they reach the place, they take out the image and commit it to the water, with every devout feeling of regret for its absence till next year. On the day of *Quinesh Chuttoothie* the Hindus are prohibited by the *Shastras* from looking at the moon, and therefore prejudiced and credulous Hindus are afraid to look at her this evening, for fear of incurring any calamities throughout the year. If the vulgar people happen to see the moon, they try to provoke their neighbours to abuse them, and comfort themselves with the idea that the calamities incurred will be all comprehended in that abuse, and removed by it.

RUSHEE PENCHAMEE.—Observed in honour of the seven Rushees or sages, who are supposed to be the seven bright stars in the *Great Bear*.—Vide 21st August.

GOVREE.—One of the names of the goddess *Parruttee*.—Cakes are made in the shape of pebbles, and eaten at night-time.—Vide 23rd August.

WAMUN DWADASHIEE.—Instituted in commemoration of the fifth incarnation of Vishnu, in the shape of a dwarf, to prevent *Bullee* from obtaining dominion over the three worlds through the effects of his religious austerities. Bullee promised the dwarf at his own request to grant him as much land as he could compass at three steps. On the ratification of this promise, the first two strides of the incarnate deity embraced the heaven and the earth : there being now no place for him to put down his foot for the third time, Bullee magnanimously told him to put it on his head, which the dwarf having done, crushed him down to *Patana*, the dominion of which was conceded to the ambitious monarch.—Vide 27th August.

PITUR PUKH.—The dark half of the month *Bhadrpad*, and sacred to the Pitars, or progenitors of mankind, to whose heaven the souls of the deceased ascend after the celebration of funeral rites, which is particularly proper during this season.—Vide 31st August.

DUSSEERA.—This festival, called *Doorga Pooja* or *Dargolsura*, is supposed to relate to the autumnal equinox. On this day, in commemoration of the victory of *Deree*, the wife of *Shura*, over the monster *Maheeshasoor*, her images, after having been worshipped for nine days, are thrown into the water.—Vide 23rd October. On this day also *Rama* marched against *Ravana*, on which account the Marathas seem to have selected it as a proper period for commencing their plundering excursions. This day is observed thus ; Early in the morning the Hindus, having washed the selves, perform the *Pooja* of their household gods in conjunction with that of all their *shastrical grnths* or religious books. Marathas and Kshatras, or those who consider themselves of the military race, worship the implements of war, and ask protection of them throughout the year, under a conception that to the propitiousness of the sword they owe every prosperity. Thereafter at noon they take dinner, in the company of their relatives who may have been invited on the occasion. In the afternoon they go to the temples in procession, with friends and relatives, and children, richly attired. *Moombadavee* and *Gooleshwar* are the principal scenes. Both of these places are thronged by dense masses of Hindus, bearing each in his hand flowers and a branch of a certain tree (*Apta*) denominated *sona* (gold), which is held highly sacred and indispensable in commemorating this day. On entering the temple they offer the *sona* and flowers to the image, accompanied with prayer ; they also give snuff *Dakshina* to the Brahmins, and return home, visit their friends and relatives, present them with a leaf or two of this imaginary gold, and conclude with a hearty embrace and receive similar treatment in return at the same time. The *sona* forms the chief article of the Dusseera holiday. The vicinity or front of the above temples is surrounded by the vendors of this plant, who range themselves with baskets full of branches in bundles. At night an illumination is made. This day is considered by the Hindus most auspicious for sending their children, who are beginners, to school. The preceding days of the Dusseera are called *nowaratree*, a compound word for nine nights. During these previous nine days, the devotees of *Durga* keep themselves holy, engage a Brahmin to read hymns before her, in which her exploits are extolled and her rewards to her votaries are described. On the ninth day, at every temple of *Durga*, *Haree*, or a sacred fire is created, and fed with rice and clarified butter, and adored by the repeating of mantras. It is customary among the Banian women to keep up a dance during these nine nights, called *Gurbha*, which is accompanied with religious songs. The celebration of the Dusseera owes its origin to the *Panduraw* : the five sons of *Pundee* having selected this day, after completing their exile of

twelve years, as an auspicious one for making preparations for the tremendous war with their paternal cousins, the *Kouraveas*, of which the Puranas give an account, occupying the whole volume. The Hindus decorate the horses with flowers this day, putting garlands of flowers around their necks. It is said that Parth, the most invincible of the five Pandawas, who had a peculiar fondness for horses and a pre-eminent skill in the art of chariot-fighting, and from their being great auxiliaries in the matters of battle, washed his favourite milk-white horses, put garlands of flowers around their necks, and tapped them, in token of fondness and approbation, with his own hand: owing to this legend, it seems, the decorating of horses with flowers this day is observed.

DEWALLEE (from *Depawali*, Sanscrit, signifying a row of lamps)—Is celebrated in honour of the goddess Kallee, or Bhuvanee, who was formerly propitiated by human sacrifice, and of Vishnu's victory over the demon Tarakee.—Vide 12th November. The festival, however, seems to be more peculiarly consecrated to Lakshmee, or the goddess of prosperity. The first day (Ushin wadh) is termed *Dhannotrayadashee* and Sowkars now count their stores and perform puja to their wealth. On the *Unarasya*, or new moon, there being a fresh account, puja is again performed before the old and new books. The festival lasts altogether five days. The Dewallee means the least of illumination, or ranges of light. It is celebrated for the period of five days, during which houses are cleansed, whitewashed, and illuminated; a quadrangular floor is made in front of the house, and painted with different colored powders; it is called *Rangpotee*. Gambling was the chief recreation of the fest. The Dewallee commences from the 28th day of *Asheenuadh*,—this day is denominated *Dhannotrayadashi*. This day they collect all the treasure in their houses and worship it, giving it the name of *Lumee*, the goddess of wealth; a light is made and dedicated to *Yama*, the god of the infernal regions, and every preparation is made for the succeeding morning. Fireworks, crackers, spouters, &c., are displayed. The 29th is *Naurahutadashi*. This day Vishnu killed Nannukasoor, an invincible giant, after a desperate battle, and entered his city early in the morning with the palm of victory, when the people illuminated the city and received him with great joy and acclamation; and the women of the city having adorned themselves, went before him with lighted lamps, and congratulated him. The Hindus keep this day to commemorate this great conquest. This day they get up early in the morning, fill the house with lights, rub their bodies with perfumed ointment, and bathe themselves with hot water. No member of the family is left unbathed; new clothes and ornaments are put on, and children are decorated. When this is done, the mistress of the house performs a sort of ceremony called *Arthee*—by placing works either in silver or brass dishes, which mean that God would remove all the difficulties and make the year happy—when each male member makes her a present of money; sweetmeats are distributed, and friends are invited to dinner. The 30th, *Amanashu*, last day of the moon, is the day of *Saraswatee*, the goddess of learning and wealth. It is vulgarly known by the name of *Pedapojan*, or the worship of the shops. This day the year of Vikram Samvat, or Vikram's era, closes; all the merchants close their accounts this evening. New journals, ledgers, and day-books are bought and worshipped through a Brahmin priest; new entries are made in the account books, which are sent to different shops with rupees to credit in their names, on this auspicious evening *Saraswatee* is invoked to render the subsequent year prosperous, and to be with them throughout the year; then the Brahmins are sufficiently paid for their labours, and servants receive a present of some money, according to their rank: thus day is celebrated by all classes of people—Brahmin, Parver, Mohomedans, &c. The first day of *Kartick Shoodh* is Balaaj, the day of king Bali. This day Bali was sent to *Patul*, or the lower region, by Vishnu, for his great merit. They also rise up very early in the morning, make the lights, clean the houses, wash their bodies, and fill a basket with all the rags and rubbish, in the house, put a lighted lamp over it, and throw it outside of the house, repeating these words—"Let all the misery and troubles go, and the kingdom of Bali come." After the ablution, the women make an image of Bali Rajah and worship it; presents are given to the Brahmins and other mendicants; and playing with dice is continued with greater ardour and spirit than ever. The 2nd day of Kartick Shoodh is *Yama Dwitiga*, which is commonly known by the name of *Blurhij*. This day Yama, the king of the infernal regions, went to his sister to dine, and to perpetuate the memory of this, the Hindus must go to their sisters' houses and take their meal with them, and make them a present of some money or gold ornaments, and thus please the king, who will save them from the punishment of their sins.

KARTICK EKADSHIE—Is the eleventh day (in some years the fourteenth) of the light half of the month Kartick, and is celebrated in honour of Vishnu. On this day the god is supposed to rise from his slumber of four months—a fable which has reference to the sun at the winter solstice.—Vide 21th November.

KARTICK POORNA—Is the full moon of the month Kartick. On the fifteenth of this

month, as well as of Magh, Aashad, and Vaishak, each of which days is called "*Donumasya Kurn*," gifts to Brahmins are considered indispensably necessary. Shiva also is said to have gained his victory at this season over the monster "*Tribhoorasora*."—Vide 27th November. Kartick Shoodh Pournima, the full moon in the month of *Kartick*, is called the *Tree Poora Soora*, master of the three cities. This demon is said to have become so powerful that he defeated almost all the gods, and drove them out of their habitations, when they formed a levee, and went to *Kylas*, the abode of *Shiva*, and represented to him their grievances; who after lending an ear to their pitiful supplication, comforted them by the assurance that the evil should be soon removed, and sent them back to their respective homes. He accordingly made a car of the earth, the wheels of which were the sun and the moon. *Brahma* was chosen his charioteer, the mountain Himalaya formed his bow, and *Wasookey*, the king serpent, his bowstring. Vishnu himself became his quiver. Thus equipped, *Shiva* rode himself in it, and destroyed the mighty gaint after a struggle. To perpetuate the memory of this great event, the women of the Hindus get up very early in the morning of this day, at about two o'clock, and wash themselves in cold water, and repair to the temple of *Shiva*, and worship his image. Afterwards they return home, and present a Brahmin with a lighted lamp, made either of silver, copper, or brass, according to their ability, along with some fruits and *Dakshina*, a present in hard cash; this is called *Deepdan*, or present of a lamp. In the evening an illumination is made in the temples of *Shiva*, and a pillar of stones built in front of all of them for this special occasion. A grand fair is also celebrated this day in honour of *Walkeshwar*, an image of *Shiva* at Malabar Hill. It is kept for three days, when booths are erected, and shops are adorned with all kinds of articles by the people of all denominations. The Hindus, both the rich and poor, Brahmins and Shoodras go there and worship the image of *Shiva*, and buy sweetmeats and toys for their children. Some of the wealthy Hindus remain there with their families for three or four days in the *Dhurrumsalla*, or inns built by them, but the poor return the same evening. During these days hundreds of rupees are spent in hiring conveyances, and purchasing sweetmeats and toys, among many other entertainments.

BIRTH CEREMONIES.

Different ceremonies are prescribed by the Shasters to be observed at the period of conception, and the different stages of pregnancy. "*Jatkurn*" is to be performed at the birth of the infant, and consists in giving it a drop of honey out of a golden spoon before dividing the navel-string. Other rites are to be observed on naming the child twelve days after birth—on bringing him outside the house when three months old—on feeding him with the hand at six months—and, if a male, on shaving his head at the age of three years.

MARRIAGE CEREMONIES.

Among Brahmins the male may be married at any time after the "*Moonj*," or investiture with the sacred thread, which is done within the age of eight years, and among other castes at any age. The female should not be ten years old, and her age must be less than that of her husband; and she should be married before the appearance of the signs of puberty. The Shasters mention eight kinds of marriage, but only one is observed by the "higher castes," named *Brahma*, when the charges are severally incurred by the fathers of the parties. The principal marriage ceremonies among Brahmins are the "*Lugumputrica*," or writing by the Joshee or Astrologer of the names of the parties, and the day and hour at which the wedding is to take place, the "*Suptupudee*," or walking round a fire three times, at each time seven steps, and tying together the garments of the parties and the "*home*" or burnt offering; after which the contract is indissoluble. The girl is given away by her father in his own house, in which it is usual for her to remain till the appearance of the signs of puberty, after which she proceeds to the residence of her father-in-law, where her husband also resides, or to that of the latter, should it be otherwise. Particular months and junctions of the planets are prescribed for the celebration of marriages in different castes. as also the same castes in different countries have their peculiar ceremonies, which are too various to be described here. "*Phulshobun*" is the performance of certain ceremonies on the occurrence of the first menstuous symptoms.

DEATH CEREMONIES

On the death of a man, the performance of his funeral obsequies (*Kriya*) and of the monthly and annual purificatory ceremonies, devolves on his heir. The principal times for performing "*Shradh*" are eleven days after death; secondly, every month, and thirdly, on the anniversary of death. Brahmins are unclean for ten days after the death of a relation,—the military class for twelve,—the mercantile for fifteen,—and Shoodras for thirty. Among the Hindus, generally, the body of the deceased is burnt,

but that of an infant under two years of age is buried. The "Shradh" consists in the offering of rice, flowers, water, &c. to the deceased and to his uncles, in order to enable his soul to ascend to the heaven of the Pitars, or great progenitors of the human race.

MAHOMEDAN.

RAMZAN.—This Mahomedan fast commences each day throughout the month of this name, when the first streak of light borders the eastern horizon, and continues until the stars are clearly discerned in the heavens. During the whole period not the slightest particle of food, not one single drop of water, nor any other liquid, passes the lips from the dawn till the appearance of the stars in the evening. Each day during the fast is passed in occasional prayer, besides the usual *namaz*, and in reading the Koran or the lives of the prophets.—Vide 23rd April. The fast is first broken by a cooling draught called *Dundhie*, the same which is used in fevers. It is composed of the seeds of lettuce, cucumber, and melon, with coriander, all well pounded, and afterwards diluted with cold water; rose water, sugar, syrup of pomegranate, and *kurāt*, are also added; the whole preparation is made in the *zenana*, and then drunk by basins-full by all true *Rozedhairs*. Plain boiled rice, with *dhie* (sour curd) and sugar, forms the first morning's repast of the *Eed*; dried dates are eaten with it in remembrance of the prophet's family, whose greatest luxury was supposed to be the dates of Arabia. The conclusion of the month *Ramzan* is celebrated as an *Eed* or festival, and is hailed with great rejoicing and merriment, as a sort of reward for their severe abstinence. In every house the same dainties are provided, every amusement that can be thought of is indulged in; the nautch women in the apartments of the gentlemen, and the dominoes in those of the ladies, are in great request, the *zenanas* ring with festive songs, and all is life, joy, cheerfulness, and cordiality on this last day of the *Ramzan*, when the lady of the mansion sits in state to receive nuzzurs from inferiors, and to grant favors to others.

EED.—The followers of Mahomed claim to be the descendants of Abraham through his son Ishmael, who, they aver, was chosen as the offering to the Almighty, and not Isaac, thus differing from the belief of the Jews and Christians, and supporting their assertions by traditions which they deem conclusive evidence on the subject, in opposition to the authority of the Bible. The offering thus made to heaven is annually commemorated by the sacrifice of particular animals, such as camels, sheep, goats, kids, or lambs, according to each person's means, and answers the double purpose of honouring the memory of Abraham and Ishmael, and also assisting to a meal in a time of great need. The followers of Mahomed believe that the entrance to Paradise is guarded by a bridge made of a *scythe*, or some such equally sharp instrument, affording a precarious and unstable footing. To enable them, therefore, to pass without danger, they believe that the number of animals they have sacrificed at the feast of *Eed* will be present to lend their aid to help them over in safety.

EED KORBAN.—In commemoration of Abraham offering up Isaac, but in Mahomedan estimation Ishmael; and this is the day on which they annually perform the *Haj* at Mecca.—Vide 30th June.

MOHURRUM.—A celebrated mourning festival, held annually in remembrance of the first martyrs of the Mussulmans—Hasein and Hossein—the two sons of Fatima and Ali, from whom the whole race of Syuds have generated. Hasein was poisoned by an emissary of the usurping Calipha, and Hossein the last victim of the descendants of the prophet's family to the king Yuzzed's fury, suffered a cruel death, after the most severe trials on the plain of *Kurbulla* on the tenth day of the Arabian month Mohurrum, the anniversary of which catastrophe is solemnised with the most devoted zeal. Hasein and Hossein were, as above stated, the two sons of Ali, by his cousin Fatima, the daughter of Mahomed; and after the murder of their father by the contrivances of the Calipha, they with their families removed from *Shawn*, the capital, to Medina. After residing there for several years, the people of *Shawn*, being tired of king Yuzzed's tyrannical rule, invited Hossein to return to the capital and take up his lawful right as Emaum (leader of the faithful). Before accepting this invitation, Hossein sent Moslem, his cousin, as a messenger, to report the true state of affairs to him, but on his arrival with his two sons at *Shawn* he was seized by order of king Yuzzed, and cast from a precipice, and his two innocent sons were barbarously murdered, for the sake of the reward offered for their heads. This forms the subject of the ten days' bewailing during the Mohurrum. The Mahomedans are divided into distinct sects, called the *Sheas* and the *Soonies*. The former believe Ali and his descendants to be the lawful leaders after Mahomed, and the latter are persuaded that the Caliphas, as Aboubuker, Omer, &c., are the only leaders to be accredited,—hence quarrels, animosities, and dialikes are kindled up to be avenged during the Mohurrum. The festival begins on the first day of the moon

(Mohurram). *Tazias*, (a term signifying grief, and applied to a representation of the mausoleum erected over the remains of Anam Hossain at Kurbulla,) made of ivory, ebony, sandal-wood, cedar, and some wrought in silver filigree, and indeed of every variety of material, from pure silver to bamboo and paper, according to the rank and wealth of the party, are exhibited in every direction, and conveyed in procession through the streets. Mourning assemblies are held morning and evening, in the Emaum Barrahs, during the Mohurram, and the head priest or preacher recites a subject for each day's service, from the various books composed on the subject, descriptive of the life and sufferings of Hassein and Hossein. The *Murseeah*, a poetical composition of great merit, and embracing all the subject they meet to commemorate, is chaunted with great effect; the names of their lawful leaders are recounted with blessings, and that of their usurpers, the Caliphas, with curses. Then comes the procession of Dhull Dhull, the name of Hossein's horse killed at Kurbulla, beautifully caparisoned; and finally the *Tazias* are deposited with funeral rites in the public burial grounds, when the Mohurram ceases until the return of another year. The *Taboot* is a slight framework of bamboo, in the shape of a mausoleum, covered and ornamented with coloured paper and tinsel, and is designed to represent the mausoleum built over the remains of the slaughtered Hossein. They vary considerably in size and appearance, according to the taste and ability of those who build them. In some of them are the representation of the Tomb of Hassein and Hossein. Before these *Taboots* incense is burned, and various other rites are performed. The *Taboots*, it is said, are peculiar to India. They, of course, are not mentioned in the Koran, and they are not built either by the inhabitants of Persia or Arabia. Many Mahomedans regard them with strong disapprobation. In Bombay the larger portion of the Mahomedans unite in building the *Taboots*. These are taken out, and, accompanied with music, carried in procession through the Bhandy Bazar, from midnight of the ninth until three o'clock of the morning of the tenth day, and from two to six o'clock on the afternoon of the same day, on their way to the beach in Back Bay, where the greater part of the *Taboots*, after being stripped of whatever is possessed of value, are cast into the sea. The practice of building *Taboots* seems to be losing ground in Bombay, a portion of those who formerly united in this having adopted the views of those opposed to those things. The Indian Mahomedans, who do not unite in building the *Taboots*, are accustomed to go on this occasion to the mosques for five successive evenings, to listen to the account of the death of Hossein. Their demonstrations of grief, however, are not equal to those of the Moguls and Persians, who, while listening to the recital, weep aloud, and snite violently upon their breasts. These are accustomed to meet at the Musjul, a little to the east of the American Mission Chapel, near the Baboolah Tank, in Musja Mahomed Ali Khan Street. In Bombay there is, strictly speaking, no representation of the battle which was fought previous to the death of Hossein. Some two or three horsemen, bearing flags, enter the large yard adjoining the Emaum Barrah, with loud wailings, and are followed by two horses caparisoned, to represent those which were for the use of the fallen Hossein. One person on horseback, with a long sword apparently run through the head, and covered with blood, joins in the wailings. A female infant in deep mourning, sitting at the door of a small mausoleum, which is carried on the shoulders of men, constantly casts ashes or cut-straw upon her head, in token of grief. These pass round in a circle, accompanied or followed by a company on foot, who beat upon their breasts, crying, "Hai Hossein! Hai Hossein!" Sometimes, a person represented in a dying state, his body covered with wounds and blood, and darts and daggers run into it, is carried about in procession. The whole is, indeed, a strange exhibition, fitted to excite in the mind of the enlightened spectator mingled feelings of piety, wonder, and grief. We are not sufficiently informed to give an accurate account of all that occurs on this occasion. It would seem that this festival is now celebrated with less effort and effect than formerly. It is apparently becoming more and more a farce. The grief is doubtless for the most part feigned. The decline of the peculiar zeal of the Mahomedans must necessarily lead them to enter into these with less spirit.—Vide 29th July.

PARSIS.

The Parsis of India are divided into two sects,—the "Shahinshahis" or "Rashmis," and the "Kadumis" or "Churigars," the former of whom constitute the larger portion of the nation. This division originated only about a hundred and fifty years ago, when a learned Persian priest, named Jannasp, arrived in India, and found that his co-religionists differed with their brethren of Iran in their calculation of time by full one month, and in other minor points relating to their "liturgy." Serious disputes arose in consequence, which ended in the formation of the two sects, the Shahinshahis adhering to their own views, and the Kadumis adopting the opinions

imported by Jamsap, thus agreeing with their Persian brethren. Notwithstanding this division, no estrangement exists between each other in their social intercourse. The difference only lies in their computation of time, and in some slight variations in the forms of prayers. Intermarriage is allowed, as well as admission to each others' places of worship.

The festivals of the Parsis, unlike the Hindus and Mahomedans, are celebrated with little or no outward pomp. Their holidays are mostly occupied in prayers in the morning and festivities and rejoicings during the rest of the day. Some of their religious institutions can be traced to a very ancient period. The festival of the Nowroz dates to upwards of three thousand years before Christ, and is kept to this day by most of the nations of Western Asia, notwithstanding the difference of creed. In a paper by the late Col. Vans Kennedy, published in the second volume of the "Transactions of the Bombay Literary Society," we are informed that the Emperor Akbar adopted the "Nowroz," and fourteen other festivals of the Parsis, for the observance of those who were attached to his favourite doctrines of the "Alahi faith," or the "Religion of God," which he fruitlessly endeavoured to introduce among his people.

PAPETI, OR NEW YEAR'S DAY.—Among the festivals observed by the Parsis, the first and universally kept, is the Pateti, or new year's day. This day is celebrated in honour of Yazdegerd, the last King of the Sassanide dynasty, who was dethroned by Kalif Omar about A. D. 640. The ancient Persians reckoned a new era from the accession of each successive monarch, and as Yazdegerd had no successor, the date of his accession to the throne has been brought down to the present time, thus making their current year 1229-30. In their calculations of the year only 365 days are allowed; the leap year is unknown to them, though there are records which prove that in every 120 years one month was added to the period, to correspond with the solar year. The year is divided into twelve months of thirty days each, and five days, or "Gathas," as they are called, are added at the end to make up the deficiency. On this day the Parsis rise early, and dress themselves in new suits of clothes, and those piously disposed say their prayers in their private residences, or attend the fire-temple, where a large congregation is gathered. After prayers the Parsis visit their friends and relations, when the "Hama-i-jour" or "joining of hands" is performed. This ceremony is a sort of greeting, corresponding to the European fashion of wishing each other a happy new year. Their friends and relations are invited to breakfast. The morning being thus occupied they spend the rest of the day in their country houses or clubs, where feasting, rejoicing, and nautch-parties are kept up till a late hour. Alms are also given to the poor in the course of the day, and new suits of clothes are presented to their servants and dependants.—Vide 24th September.

KHORDAD-SAL.—The second of the Parsi festivals is the "Khordad-Sal" day, or the anniversary of the birth of their prophet Zoroaster, who was born in the city of Rebe, in the north of Persia, in the reign of Darius Hystaspis, about 520 years before Christ, according to Greek writers. Heeren places the birth of this celebrated personage about 1200 years anterior to that ascribed by the Greek chronologists. The Parsis themselves differ as to the exact time of the birth of their prophet; a part of them fix the period at B. C. 389; others at B. C. 638. Religious ceremonies are performed in the morning by the women of the family and the priests, the men, as usual on such occasions, limiting themselves to private prayers.—Vide 29th Sept.

AMARDAD-SAL.—This holiday, which falls on the day immediately after the preceding festival, appears to have no origin in the books of the Parsis. It is merely kept up as the continuation of the "Khordad-Sal"; no religious ceremonies are required, and the day is always spent in the enjoyment of epicurean pleasures.

FURROHURDIN JUSSUK.—This day is set apart for the performance of ceremonies for the dead, Furrohur meaning soul or spirit. On this day the superstitious portion of the people in Bombay attend on the hills near Chowpatty, where there "dockhmas" or "towers of silence" are situated, and there perform prayers for the dead, as if they had a better chance of being heard at that place on behalf of their deceased relations than any other place of worship. This holiday is kept with some slight variations in other parts of India. The Parsis are enjoined by their religion to preserve the memory of their dead by annual religious ceremonies performed in the house; but such of their friends who die on long voyages or in unknown places, and the date of whose death cannot be positively ascertained, are, according to the forms of their religion, honoured by sacred rites on this day. This ceremony consists in a man or woman preparing small round pieces of baked bread, called darouns, which are put in a tray or other copper vessel, along with some fruits and flowers, over which the priest performs the prayers of the Baj, or Vaj, as it is called by M. Anquetil Du Perron in his work, the "Zend Avesta." According to the translation published by this learned Frenchman, the Baj is an invocation of the names of the departed, and of such of the angels who have a direct control over the souls of the dead after their departure from this world. Prayers of this sort are still performed among the

Hindus and many sects of the Mahomedans, and are not unknown, we believe, in some of the Roman Catholic countries of Europe.—Vide 9th June.

ARDIBEHST-JASAN.—This festival, as its name implies, is maintained in honour of Ardibehst Amsaspund, the controlling angel over the sacred fire, that element being one of the symbols of worship. The fire-temples are crowded this day, and prayers offered to the Supreme Deity.—Vide 24th October.

The **Nowroz**.—The fifth on our list is the celebrated **Nowroz**, called by some the **Nowroz-i-Jamshid** or the **Nowroz-i-Sultan**, the king's day. This celebrated festival falls generally about the 21st day of March, and is coeval with our Vernal Equinox, and the **Mekhr Saccaranti** of the Hindus. This day is observed by the Modern Persians, the Arabs, the Turks, and several other Asiatic nations for the computation of the solar year, and for state purposes, such as the collection of revenue, and the arrangements for the agricultural operations of the year. Eastern writers date the origin of this festival from the time of Jamshid, the third king of the Peshadian dynasty of Persia, and our own Western writers are not disposed to doubt this statement. Jamshid is supposed to have flourished, according to Bailey, 3,209 years before Christ; the *Shah Nameh* celebrates him as the first prince of his race who introduced civilisation among mankind, and established the computation of time. If we are to believe the host of Persian writers, the exquisite bas-reliefs at the ruins of Persepolis,—still visible in all their pristine beauty after a lapse of two thousand years,—are representations of the Court of Jamshid, more especially on the festival of the **Nowroz**. The sculptures at this remarkable place, indeed, contain representations of the courts of ancient Persia, with their long train of attendants bringing in offerings to the feet of the Monarchs; and as the **Nowroz** is a sort of "revenue settlement" day, when the chiefs of different provinces pay their annual contributions before the throne, and are allowed audience with the monarch, the idea of a part of the Persepolitan bas-reliefs being a picture of some ancient king of Persia holding his court on the day of the **Nowroz**, does not appear to be without a good foundation. In Persia this festival is kept for several days with unusual pomp by all the inhabitants, whether Mahomedans or Persians. In India it is simply a day of rejoicing.—Vide 18th March.

AVA ARDUI SUR JASAN.—*Ava*, in the Zend text, is the name of the angel who presides over the sea, and this "Jasan," or festival, is held in his honour. The Persians are simply required on this day to approach the sea shore, or any stream of water, and chant the prayers which are written in Zend; but owing to their long residence in this country, they have borrowed many Hindu rites in the observance of this holiday, and offerings of sugar, cocoanuts, flowers, &c., to the sea, on this day, are not uncommon. The better-informed portion of the community, however, do not join with their brethren in these superstitious acts. In Bombay a fair is held on the esplanade in honour of this festival.—Vide 1st May.

ADDAR JASAN.—*Addar*, another synonyme for fire, is the name by which the ninth month of the Parsi year is called. This is the most religious of the twelve months, and the ninth day of that month is held in great respect and sanctity. On this day the Fire temples are very much crowded, and offerings of sandal-wood are made to the sacred flame, and money distributed among the priests.—Vide 30th May.

Besides the above, the festivals of the Persians are the *Meher Jasan*, the *Bomun Jasan*, and a few others of less importance, all of which are partially observed.

The **MOOKTADS** is the name of a ceremony which is performed at the end of the Parsi year.—Vide 15th September. It consists of a pile of brass or silver vessels filled with water, and raised above the ground on iron stools. Flowers and fruits are placed there, and religious ceremonies in honour of the dead are performed before the *Mooktads*. A society for religious reform, which has been lately established among the Persians, has denounced this ceremony in no respectful terms. According to the tracts published by these reformers, the Parsi scriptures only require that the last ten days of the year should be spent in deeds of charity, prayers, and freedom from worldly pursuits; they add further, that the ceremony of the brass and silver vessels, &c., is borrowed entirely from the Hindus.

An Act to provide for the Punishment of Breaches of Contract by Artificers, Workmen, and Labourers in certain cases.

[4th May 1859.]

Whereas much loss and inconvenience are sustained by manufacturers, tradesmen, and others in the several Presidency Towns of Calcutta, Madras, and Bombay, and in other places, from fraudulent breach of contract on the part of Artificers, Workmen, and Labourers who have received money in advance on account of work which they have contracted to perform; and whereas the remedy by suit in the Civil Courts for the recovery of damages is wholly insufficient, and it is just and proper that persons guilty of such fraudulent breach of contract should be subject to punishment; It is enacted as follows:—

I. *If Workman neglect to perform Work on account of which he has received an Advance of Money, Complaint may be made to the Magistrate.*—When any Artificer, Workman, or Labourer shall have received from any Master or Employer resident or carrying on business in any Presidency Town, or in any station of the Settlement of Prince of Wales' Island, Singapore, and Malacca, or from any person acting on behalf of such Master or Employer, an advance of money on account of any work which he shall have contracted to perform, or to get performed by any other Artificers, Workmen, or Labourers, if such Artificer, Workman, or Labourer shall wilfully and without lawful or reasonable excuse neglect or refuse to perform or get performed such work according to the terms of his contract, such Master or Employer or any such person as aforesaid may complain to a Magistrate of Police, and the Magistrate shall thereupon issue a summons or a warrant, as he shall think proper, for bringing before him such Artificer, Workman, or Labourer, and shall hear and determine the case.

II. *Magistrate may order Repayment of Advance or performance of Contract.—Penalty if Workman fail to comply with the Order.*—If it shall be proved to the satisfaction of the Magistrate that such Artificer, Workman, or Labourer has received money in advance from the complainant on account of any work, and has wilfully and without lawful or reasonable excuse neglected or refused to perform or get performed the same according to the terms of his contract, the Magistrate shall, at the option of the complainant, either order such Artificer, Workman, or Labourer to repay the money advanced, or such part thereof as may seem to the Magistrate just and proper, or order him to perform or get performed such work, according to the terms of his contract; and if such Artificer, Workman, or Labourer shall fail to comply with the said order, the Magistrate may sentence him to be imprisoned with hard labour for a term not exceeding three months, or, if the order be for the repayment of a sum of money, for a term not exceeding Three Months, or until such sum of money shall be sooner repaid; provided that no such order for the repayment of any money shall, while the same remains unsatisfied, deprive the complainant of any Civil remedy by action or otherwise which he might have had but for this Act.

III. *Magistrate may require Workman to give Security for due performance of Order.*—When the Magistrate shall order any Artificer, Workman, or Labourer to perform or get performed any work according to the terms of his contract, he may also, at the request of the complainant, require such Artificer, Workman, or Labourer to enter into a recognisance with sufficient security for the due performance of the order; and, in default of his entering into such recognisance or furnishing such security to the satisfaction of the Magistrate, may sentence him to be imprisoned with hard labour for a period not exceeding Three Months.

IV. *To what Contracts the Act extends.*—The word "contract," as used in this Act, shall extend to all contracts and agreements whether by deed, or written, or verbal, and whether such contract be for a term certain, or for specified work, or otherwise.

V. *Act may be extended by Government.*—This Act may be extended by the Governor General of India in Council, or by the Executive Government of any Presidency or place, to any place within the limits of their respective jurisdictions. In the event of this Act being so extended, the powers hereby vested in a Magistrate of Police shall be exercised by such Officer or Officers as shall be specially appointed by Government to exercise such powers.

XVIII. Foreign Inventor.—A foreigner, whether resident abroad or not, may petition for leave to file a specification under this Act.

XIX. An Invention not publicly used or known in the United Kingdom or in India before the application for leave to file his Specification, to be deemed a New Invention within this Act.—Knowledge of Invention fraudulently acquired.—Public use by Inventor.—An invention shall be deemed a new invention within the meaning of this Act, if it shall not, before the time of applying for leave to file the specification, have been publicly used in India or in any part of the United Kingdom of Great Britain and Ireland, or been made publicly known in any part of India or of the United Kingdom by means of a publication, either printed or written, or partly printed and partly written. The public use or knowledge of an invention, prior to the application for leave to file a specification, shall not be deemed a public use or knowledge within the meaning of this Section, if the knowledge shall have been obtained surreptitiously or in fraud of the inventor, or shall have been communicated to the public in fraud of the inventor or in breach of confidence; provided the inventor shall, within six calendar months after the commencement of such public use, apply for leave to file his specification, and shall not previously have acquiesced in such public use; provided also, that the use of an invention in public by the inventor thereof, or by his servants or agents, or by any other person by his licence, in writing, for a period not exceeding one year prior to the date of his petition, shall not be deemed a public use thereof within the meaning of this Act.

XX. Inventor having obtained English Letters Patent, to petition within 12 months from the passing of this Act or from the date of the Letters Patent.—Invention, if not publicly known or used in India at the time of applying for such Letters Patent, to be deemed new.—What to be stated in such Petition.—Duration of Exclusive Privilege.—If an inventor who, prior to the time of applying for leave to file a specification of an invention under this Act, shall have obtained Her Majesty's Letters Patent for the exclusive use of such invention in the United Kingdom or any part thereof, shall within twelve calendar months from the passing of this Act, or within twelve calendar months from the date of such Letters Patent, petition the Governor-General of India in Council for leave to file a specification of such invention (which petitions shall be in writing in the form or to the effect mentioned in the Schedule), the invention shall be deemed a new invention within the meaning of this Act, if it was not publicly known or used in India at or before the date of the petition for such Letters Patent, notwithstanding

it may have been publicly known or used in some part of the United Kingdom or in India before the time of his petitioning, under this Act, for leave to file the specification; provided, the petition, for leave to file the specification, shall state that such Letters Patent have been granted, and shall also state the date thereof and the term during which the same are to continue in force; provided also, that an exclusive privilege, obtained under the provisions of this Act by an inventor who has obtained Her Majesty's Letters Patent for the exclusive use of such invention, shall cease to have effect, if such Letters Patent be revoked or cancelled; and that no such exclusive privilege shall extend beyond the term granted by such Letters Patent, unless the same shall be renewed, in which case, the exclusive privilege may be renewed under this Act for the extended term or any part thereof.

XXI. *Saving of rights of persons who used Invention before 7th of July 1855.*—No exclusive privilege obtained under this Act, shall entitle the owner of such privilege to exclude any person from using the invention, who, prior to the 7th day of July 1855, used the same in India.

XXII. *Action for Infringement.*—An action may be maintained by an inventor against any person who, during the continuance of any exclusive privilege granted by this Act, shall, without the license of the said inventor, make, use, sell, or put in practice the said invention, or who shall counterfeit or imitate the same. Provided that, no such action shall be maintained in any Court other than the principal Court of original jurisdiction in Civil cases within the local limits of whose jurisdiction the cause of action shall accrue, or the defendant shall reside as a fixed inhabitant.

XXIII. *Defect in Specification or Petition, or want of novelty in Invention, &c., no defence to Action for Infringement.*—*The actual use of an Invention in India or the United Kingdom before date of Petition, a Defence to such Action.*—No such action shall be defended upon the ground of any defect or insufficiency of the specification of the invention, nor upon the ground that the original, or any subsequent petition relating to the invention, or the original or any amended specification, contains a wilful or fraudulent mis-statement, nor upon the ground that the invention is not useful; nor shall any such action be defended upon the ground that the plaintiff was not the inventor, unless the defendant shall show that he is the actual inventor, or has obtained a right from him to use the invention either wholly or in part. Any such action may be defended upon the ground that the invention was not new, if the person making the defence, or some person through whom he claims, shall, before the date of the petition for leave to file the specification, have publicly or actually used in India or in some part of the United Kingdom, the invention, or that part of it of which the infringement shall be proved; but not otherwise.

XXIV. *Application to Supreme Courts to declare Exclusive Privilege not to have been acquired, on what grounds.*—It shall be lawful for any person to apply, by motion, to any of Her Majesty's Courts of Judicature for a rule to show cause why the Court should not declare that an exclusive privilege in respect of an invention has not been acquired under the provisions of this Act by reason of all or any of the objections following (to be specified in the rule), that is to say:—

That the said invention is of no utility, or

That the said invention was not, at the time of presenting the petition for leave to file the specification, a new invention, within the meaning of this Act, or

That the petitioner was not the inventor thereof, or

That the specification filed, or the amended specification (if any), does not particularly describe and ascertain the nature of the invention, or in what manner the same is to be performed, or

That the petitioner has, knowingly or fraudulently, included in the petition or specification, or amended specification, as part of his invention, something which was not new, or wherof he was not the inventor, or

That the original or any subsequent petition relating to the invention or the original or any amended specification contains a wilful or fraudulent mis-statement, or

That some part of the invention, or the manner in which that part is to be performed, as described in the specification filed or the amended specification, is not thereby sufficiently described and ascertained, and that such defect or insufficiency was fraudulent and is injurious to the public.

XXV. *Like Application as to part of an Invention.*—Any person may, in like manner, apply to any of Her Majesty's Courts of Judicature for a rule to show cause why the Court should not declare that an exclusive privilege has not been acquired under the provisions of this Act in respect of any part of the invention to be specified in the rule by reason of all or any of the objections following (to be specified in the rule), that is to say:—

That such part of the invention is wholly distinct from the other part thereof, and is of no utility, or

That such part of the invention was not, at the date of the petition for leave to file the specification, a new invention within the meaning of this Act, or

That the petitioner was not the inventor of that part of the invention, or

That that part of the invention, and the manner in which it is to be performed, is not sufficiently described and ascertained in the specification filed or the amended specification, and that such defect or insufficiency is injurious to the public.

XXVI. Application by Advocate General on Breach of Special Condition.—It shall be lawful for the Advocate General at any of the Presidencies of Fort William in Bengal, Fort St. George, and Bombay, or any other person, by order of the Governor General in Council, to apply to any of the said Courts of Judicature for a rule calling upon the petitioner, his executors, administrators, or assigns, to show cause why the question of the breach of any special condition upon which the leave to file a specification has been granted, or any other question of fact on which the revocation of the exclusive privilege by the Governor General in Council under the power hereinbefore reserved may, in the judgment of the said Governor General in Council, depend, should not be tried in the form of an issue directed by the said Court; and if the rule be made absolute, the Court, unless the breach or other matter of fact be admitted, may thereupon direct such issue to be tried, and certify the result of such trial to the Governor General in Council. The costs of such trial, and also the costs of any proceedings in any of the said Courts of Judicature under the provisions of this Act, shall be in the discretion of the Court.

XXVII. Service of Proceedings on all persons interested.—Notice of any rule obtained or proceeding taken under either of the last three preceding Sections shall be served on all persons appearing to be proprietors or to have shares or interests in the exclusive privilege under the provisions of Section XXXV. of this Act, and it shall not be necessary to serve such notice on any other persons.

XXVIII. Supreme Court may direct Issue for trial to other Courts.—*New Trial.*—Any of the said Courts of Judicature, if it think fit, may direct an issue for the trial, before the same Court or any other Court of Judicature, or any principal Court of original jurisdiction in Civil cases of any question of fact arising upon an application under Sections XXIV., XXV., or XXVI. of this Act, and such issue shall be tried accordingly in a summary manner; and, if the issue be directed to another Court, the finding shall be certified by the Court before which the same was tried, to the Court directing the issue. If the issue be directed to any Court of Judicature, the Court by which the issue is tried may, before the finding is certified, direct a new trial of such issue according to the usual course and practice of such Court. If the issue be directed to any Court other than a Court of Judicature, the finding shall not be subject to appeal, but the evidence taken upon the trial shall be recorded, and a copy thereof, certified by the Judge, shall be transmitted, together with any remarks he may think fit to make thereon, to the Court by which the issue was directed; and such Court may either act upon the decision of the Court which tried the issue, or direct a new trial if it shall appear necessary.

XXIX. Judgment.—Costs.—If it shall appear to any of the said Courts of Judicature at the hearing of any application under the provisions of Sections XXIV. or XXV. of this Act that, by reason of any of the objections therein mentioned, the said exclusive privilege in the invention or in any part thereof has not been acquired, the Court shall give judgment accordingly, and shall make such order as to the costs of and consequent upon the application as it may think just; and thereupon the petitioner, his executors, administrators, and assigns shall, so long as the judgment continues in force, cease to be entitled to such exclusive privilege.

XXX. Amendment of Specification by Court.—If the Court, at the hearing of any such application as last aforesaid, shall think that the petitioner has, in the description of his invention in the petition or specification or amended specification (if any) included something which, at the date of the petition, was not new, or whereof he was not the inventor, or that the specification is in any particular defective or insufficient, but that the error, defect, or insufficiency was not fraudulently intended, the Court may adjudge the said exclusive privilege to have been acquired and to be valid, save as to the part thereof affected by such error, defect, or insufficiency; or, if the Court shall think that the error, defect, or insufficiency can be amended without injury to the public, they may adjudge the exclusive privilege in the whole invention to be valid, and may, upon such terms as shall appear reasonable, order the specification to be amended in any of the said particulars; and thereupon the petitioner, his executors, administrators, or assigns shall, within the time limited by the said Court for the purpose, file a specification amended according to such order: Provided that no such amended specification shall have the effect of extending or enlarging the exclusive privilege before acquired.

XXXI. Mis-statement in the Petition, if not fraudulent, not to defeat the Privilege.—An exclusive privilege shall not be defeated upon the ground that the petition contains a mis-statement, unless such mis-statement was wilful or fraudulent.

XXXII. Entry in Registry Book of Judgment, &c. declaring Privilege not to have been acquired.—Whenever it shall be adjudged by any of the said Courts of Judicature that an exclusive privilege as to the whole or any part of an invention has not been acquired,

the said Secretary to the Government of India shall, upon the production of the judgment or order, cause an entry thereof to be made in the said book hereinbefore directed to be kept, and shall cause a reference to such entry to be made in the margin of the entry of the specification contained in such book.

XXXIII. In what case actual inventor entitled to Assignment of an Exclusive Privilege fraudulently obtained.—If, upon proceedings instituted within two years from the date of a petition to file a specification, the actual inventor shall prove, to the satisfaction of the principal Court having jurisdiction in Civil cases within the local limits of whose jurisdiction the defendant shall reside as a fixed inhabitant, that the petitioner was not the actual inventor, and that, at the time of the petition, he knew or had good reason to believe that the knowledge of the invention was obtained by himself or by some other person surreptitiously or in fraud of the actual inventor, or by means of a communication made in confidence by the actual inventor to him or to any person through whom he derived such knowledge, the Court may compel the petitioner to assign to the actual inventor any exclusive privilege obtained under this Act, and to account for and pay over the profits thereof.

XXXIV. Particulars to be delivered.—In any action for the infringement of such exclusive privilege, the plaintiff shall deliver, with his plaint, particulars of the breaches complained of in the said action; and the defendant shall deliver a written statement of the particulars of the grounds (if any) upon which he means to contend that the plaintiff is not entitled to an exclusive privilege in the invention. In like manner, upon any application to any of the said Courts of Judicature under Sections XXIV., XXV., or XXVI. of this Act, the applicant shall deliver particulars of the objections on which he means to rely. At the trial of any such action or issue, no evidence shall be allowed to be given in support of any alleged infringement or of any objection impeaching the validity of such exclusive privilege which shall not be contained in the particulars delivered as aforesaid. If it be alleged that the invention was publicly known or used prior to the date of the petition for leave to file such specification, the places where and the manner in which the invention was so publicly known or used shall be stated in such particulars: Provided always, that it shall be lawful for any Court in which the action or proceeding is pending, or in which the issue is tried, to allow the plaintiff or defendant respectively to amend the particulars delivered as aforesaid upon such terms as shall seem fit.

XXXV. Service of Proceedings.—A book shall be kept in the Office of the Secretary to Government of India in the Home Department (such book to be open to inspection without fee) wherein every person filing a specification under this Act, or any person to whom the exclusive privilege may be assigned, shall cause to be stated some place in India where service of any rule or proceedings for the purpose of cancelling or revoking his exclusive privilege may be made, and shall cause a reference to such entry to be made in the margin of the entry of the specification, and may, from time to time, cause any other place in India to be substituted by a similar entry and reference. All such rules and proceedings as aforesaid shall be deemed sufficiently served, if a copy thereof be left at the place entered in such book, or (if any other place be substituted for the same by entry in the said book) at the place last substituted, by delivering the same to any person resident at or in charge of such place; or, if there be no person resident at, or in charge of such place, or if such place be not within the local limits of the jurisdiction of the Court, by causing such rule or proceeding to be sent by Post, by a registered letter, directed to such person at such place; and if any such person shall neglect to make, or cause to be made such entry, then service of such rule or proceeding may be affected by affixing a copy thereof to some conspicuous part of the Court-house, or in such other manner as the Court may direct.

XXXVI. Act VI. of 1856 to have effect in respect of certain Specifications filed and acts done.—Act VI. of 1856 shall be of the same force and effect in respect to every petition and specification filed under the provisions thereof before the Act was repealed, and in regard to all proceedings consequent thereon or in relation thereto, and for the purpose of everything done under that Act while it continued in force, as if previously to the passing of the said Act the sanction of Her Majesty to the passing thereof had been obtained and signified in pursuance of the Statute passed in the Seventeenth year of the reign of Her Majesty, entitled "An Act to provide for the Government of India," and as if the said Act had not been repealed; and the term of every exclusive privilege obtained under the said Act is hereby extended, and shall continue until the expiration of fourteen years from the time of the passing of this Act. No exclusive privilege obtained under the said Act by an importer not being the actual inventor shall cease to have effect by virtue of the provisions of Section XVI. of the said Act, if the invention be put in practice in India within the period of two years from the time of the passing of this Act.

XXXVII. Stamp on Petition.—Every petition for leave to file a specification under the provisions of this Act, or for the extension of the term of an exclusive privilege, shall be written, or printed, on stamped paper of the value of one hundred Rupees.

XXXVIII. Interpretation.—In the construction of this Act, the following words and expressions shall have the meanings hereby assigned to them, unless there be something in the subject or context repugnant to such construction.

Words importing the singular number shall include the plural number, and words importing the plural number shall include the singular number.

MILITARY FURLOUGH REGULATIONS.

G. G. O. No. 775, of 6th December 1854.—The Right Honorable the Governor in Council is pleased to republish the following General Order by the Most Noble the Governor General of India in Council, No. 1150, dated Fort William, 17th November 1854 :—

"The Honorable the Court of Directors having transmitted to the Government of India further explanatory instructions regarding the Furlough Regulations published in Government General Order No. 110, of the 1st of February 1854, the Most Noble the Governor General in Council is pleased to cancel that General Order, and to promulgate in a connected form the Rules which have been laid down by the Honorable Court for regulating Furloughs and Leaves of Absence.

"With the view of adapting the Regulations to the present increased facilities of communication, and to correct, as far as possible, any tendency in them to deter Officers from resorting to the places which may be most conducive to the restoration of their health, when a change of climate is required for that purpose, the following Rules are established, and are to have effect from the 1st February 1854 :—

"1. All Regimental Officers in the Service on the 1st February 1854, who prefer retaining what may be considered the advantages of the Old Regulations, may do so provided they signify their wish to that effect when they next apply for furlough or leave of absence, without any limitation whether such leave be in India or elsewhere ; and Officers who once make their election will not be entitled to any other choice, but will be afterwards subject to the New or Old Regulations, according to their decisions.

G. O. C. 10th April 1855.—With reference to *G. O. C. No. 1, of the 15th March 1854*, and to Rule 1 of the revised New Furlough Regulations, the Commander-in-Chief is pleased to notify, under instructions from Government, that Officers who entered the Service previously to the 1st February 1854 are required to make their election between the New and Old Furlough Regulations on the first occasion of their applying for any leave of absence which has to be announced in General Orders, whether such leave may be to places in or beyond India, and whether on private affairs or sick certificate.

Officers commanding Divisions and Forces will accordingly be careful, before transmitting to Army Head Quarters applications for leave from Officers to whom the above decision applies, to see that each applicant's election between the New and Old Rules is therein duly declared.

G. G. O. No. 370, of 2nd May 1855.—The following extract, paragraph 6 of a Despatch from the Honorable the Court of Directors, dated 20th March last, No. 22, is published for general information :—

"6. With reference to the modifications made in the New Furlough Regulations, we have determined that all Officers who quitted India on leave of absence previous to the announcement of such modifications, and subsequent to the promulgation of the New Rules, shall be allowed to reconsider their decision."

"2. Staff Officers, as such, have not the above option allowed them, but they may retain the advantages of the Old Regulations by giving up their appointments, which in such cases will be considered vacated from the date of embarkation.

G. G. O. No. 801, of 25th October 1855.—The Right Honorable the Governor in Council is pleased to republish the following General Order by the Honorable the President of the Council of India in Council, dated Fort William, 4th September 1855, No. 904 :—

"The following paragraph of a Military letter from the Honorable the Court of

Directors to the Government of India, No. 84, dated 27th June 1855, is published for general information :—

"Letter dated 5th April 1855, No. 82.

"Submit the question whether, as Officers are on their first application for leave of absence on Furlough to declare whether they will abide by the Old or accept the New Furlough Rules, Staff Officers who apply for leave to the Hills, or elsewhere in India, are to vacate their offices like those who take leave to the Cape or elsewhere beyond sea. Government observe that if this were so the rule would have the effect of debarring such Officers from all leave, however short, in excess of the privileged leave of one month in six."

"Staff Officers applying for leave in India are not required, by the New Furlough Rules, to vacate their Staff appointments. We therefore approve and confirm the view you have taken of this question."

"3. To those Officers who adopt them, the New Regulations will apply retrospectively in respect of Furlough and leave of absence beyond sea, and in computing their time of service for retirement; so that their Furlough or leaves of absence, whether under the Old or the New Rules, and whether on private affairs or sick certificate, within or beyond India, will count for service to the authorised extent only in computing the time for retirement on Full Pay.

G. G. O. No. 415, of 5th May 1856.—Extract from a Military letter from the Honorable the Court of Directors to the Government of India, No. 177, dated the 19th December 1855 :—

"Para 2. Under the New Rules, Officers absent from duty are allowed to count,

Letter from the Governor General, dated 18th September 1855.

A memorial transmitted from Lieutenant William Williamson, 41st N I., praying—1st, That Rule 3 of the New Furlough Regulations may be cancelled; and 2nd, that leave in India, on medical certificate, or on any urgent private affairs, may be allowed to reckon as service, as was and is still the case under the Old Rules.

spent in Europe as service for the Pension, are enabled to do so, and they claim, in consequence, a rate of Pension which could not otherwise have been claimed in some instances until after two, three, or four years of additional service. Of those who have retired on Full Pay since the Rules were established, a considerable proportion have claimed and received this advantage.

3. On the other hand, Officers who had spent such lengthened periods at the Cape of Good Hope, or elsewhere within Indian limits, as exceed the privileged time allowed by the New Rules, have to consider whether it will be for their advantage to adhere to the Old Rules, and in many instances have determined to do so in virtue of the option allowed to them.

4. If Rule 3 were to be abolished, as now proposed by your Government, the effect would be that Officers adopting the New Rules, who had taken their leaves of absence at the Cape, and elsewhere within Indian limits with the enjoyment of Indian Allowances, would count all that time for the Pension; whilst those who had taken their furlough to Europe with Regimental Pay only would be deprived of any such advantage.

5. We cannot admit that this change would be satisfactory, neither can we approve of still further increasing the privileged time of absence by adding to it all leaves of absence in India. We must therefore decline to comply with the prayer of Lieutenant Williamson's memorial."

"4. Officers who have availed themselves of the option of the Old Rules are allowed to reconsider the question under the modifications now sanctioned.

"5. Officers who have not taken leave subsequent to the publication of the New Rules on the 1st February 1854, and who consequently may not have been called upon to declare whether they would abide by the Old or the New Regulations, will, on retirement from the Service, be entitled to take full advantage of the privileges given by the New Regulations.

G. G. O. No. 662, of 28th August 1856.—All Unattached Officers are entitled to the benefit of the New Furlough Regulations from the date of their first Commissions.

"FURLONGHS ON PRIVATE AFFAIRS.

"6. Every Officer will be allowed a Furlough to Europe, or elsewhere beyond sea, for a period of two years at the expiration of ten years' service, and for a second period of two years after twenty years' service in India. (See various Orders following Rules 7 and 20.)

"7. The second Furlough of two years will only be granted after ten years' service in India from the date of the return to duty after the first Furlough of two years. These Furloughs are not to be cumulative under any circumstances, but are limited to two years. Officers who have taken leave of absence on sick certificate to Europe, or elsewhere beyond sea, will be ineligible to a Furlough on private affairs until they have served six years from their last return to duty. This Rule does not apply to short leaves to sea. (See Orders following Rules 20 and 21.)

G. O. C. 3rd July 1855.—With reference to Rules 6 and 7 of the revised New Furlough Regulations, the Commander-in-Chief is pleased to notify, that under a decision passed by the Government of India, Officers who may have availed themselves previously to the 1st February 1854 of Furlough to Europe, on private affairs, *with Pay*, after ten years' service in India, will, in the event of their adopting the New Furlough Rules, be entitled, after completing ten years' additional service, to a second Furlough, *with Pay*, under the provisions of Rule 7, for two years, deducting therefrom such period in excess of two years as they may have been previously absent on Furlough *with Pay*.

G. O. C. 23rd August 1855.—With the sanction of the Right Honorable the Governor in Council, the following decisions of the Government of India, on points connected with the revised New Furlough Rules, are published to the Army:—

Question.

"Are the periods of ten and twenty years' service in India, which will entitle Officers, under the New Furlough Rules, to Furloughs on private affairs to Europe, or elsewhere beyond sea, *with Pay*, to be understood to include all leaves of absence in India; or are all such leaves (excepting only the privileged leave of one month in six) to be reckoned against service towards Furloughs on private affairs *with Pay*?"

Decision.

"The ten years' service in India, after which an Officer is entitled to a Furlough, is understood to include all leaves in India. The second Furlough of two years is only granted after ten years' service in India from the date of return to duty after the first Furlough of two years.

"All leaves in India are counted as service, except for Retiring Pension, for which only a portion of an Officer's total leave in and out of India can be so reckoned."

G. G. O. No. 560, of 10th July 1856.—The Honorable the Court of Directors, in their letter No. 56, of the 25th April 1856, have communicated the following decision regarding Nos. 6 and 7 of the New Furlough Rules published in Government General Order No. 1150, dated the 17th November 1854:—

"Officers who take their first Furlough after twenty years' service in India, may take their second Furlough after an additional service of five years from the date of their last return to duty."

"8. All grants of Furlough on private affairs are subject to the exigencies of the Public Service, and to the Regulations framed for the preservation of the efficiency of each Regiment, by limiting the number of absentees.

G. G. O. No. 364, of 15th April 1857.—Under the authority of the Honorable the Court of Directors, the Right Honorable the Governor General in Council is pleased to extend to Officers generally, at the three Presidencies, the privilege granted to Officers at Mooltan and Peshawur, of being allowed, when the demands of the Service will permit, temporary leave, without pecuniary loss, or loss of service, for sixty days consecutively in the course of each year, or of thirty days consecutively in each half year, as may be preferred by them.

"9. Officers holding Staff or other detached appointments may be allowed Furlough for a period of six months, without losing their appointments; but during that period they will not be entitled to any portion of their Staff Salary, which will be drawn in full by the Officers officiating for them.

G. O. C. 23rd January 1855.—The Honorable the Court of Directors have been pleased to decide that Rule 9 of the revised New Furlough Regulations is not applicable to Officers proceeding on Furlough to Europe, or elsewhere beyond sea, whose service in India may fall short of the periods specified in Rules 6 and 7, and that

Furloughs can be granted to such Officers only under the special provisions of Article 75, Section XXVI., page 377, of Jameson's Code, which is to be considered as still in force.

G. G. O. No. 342, of 11th April 1856.—Letter from the Honorable the Court of Directors to the Government of India, No. 8, dated 23rd January 1856 :—

Letter No. 212 dated 29th September 1855.

Government forward correspondence relative to certain questions connected with the New Furlough Regulations, and request to be informed as to claims of an Officer to the residue of his furlough on private affairs when he has been already absent on leave to England on private affairs for six months.

Para. 8. "We have to state, in reply to your inquiry, that an Officer proceeding on leave to England for six months, retaining his appointment or otherwise, is not to be considered as having taken his authorised furlough after ten or twenty years as the case may be, but may, with your permission, be allowed at any time to take the remainder of the two years authorised furlough on private affairs."

G. G. O. No. 560, of 10th July 1856.—The Honorable the Court of Directors, in their letter No. 56, of the 25th April 1856, have communicated the following decision regarding No. 9 of the New Furlough Rules published in Government General Order No. 1150, dated the 17th November 1854 :—

"Absence for six months, under this Rule, does not preclude an Officer from taking his furlough to Europe after ten years' service."

"10. All Officers, whether Staff or Regimental, while on Furlough on private affairs, will be entitled to Furlough Pay only.

"LEAVE OF ABSENCE ON SICK CERTIFICATE.

"11. Leave of absence on sick certificate will be granted for a term not exceeding eighteen months, whether it be to any place in Europe, or elsewhere out of India.

"12. Extensions of such leave may be granted, as at present, on production of medical certificates, for further periods not exceeding eighteen months in the whole.

"13. An Officer holding a Staff or other detached appointment will be allowed to be absent on sick certificate in England, or elsewhere beyond sea, for a period of fifteen months, without losing his appointment; and during the first six months only of such absence he will be entitled to draw half the Staff Salary of his appointment, the Officer officiating for him drawing the remaining half Salary during the first six months, and the whole Salary during the remainder of the time.

"14. An Officer's claim to half Staff Salary for six months, as sanctioned in the preceding Rule, will not be affected by his subsequently retiring from the Service, in Europe or elsewhere.

G. G. O. No. 395, of 28th April 1856.—Under instructions from the Honorable the Court of Directors, the Right Honorable the Governor General in Council is pleased to publish the following Notification :—

"The grant of leave of absence to Staff Officers on medical certificate, with half Staff Allowances for six months, and with the privilege of returning to their offices if their absence from India be not prolonged beyond fifteen months, is bestowed by the Honorable Court in order to enable such Officers to regain their health, and in the expectation that they will be thereby qualified to render additional service to the Government. But if leave of absence be taken merely to run out a prescribed period of service, and without any intention of returning to duty, the principle on which the rule is founded is infringed, and the indulgence of the Honorable Court is abused. Wherefore the Right Honorable the Governor General in Council hereby notifies for general information, that if there be an avowed intention on the part of an Officer not to return to duty, or if the Government have valid grounds for concluding that the Officer has no intention to return to duty, the indulgence of leave on sick certificate, retaining office, will not be granted in future."

"15. No portion of Command Allowance, Medical Staff Salary, or other similar allowance, which under the Old Rules was inadmissible to Officers absent from their Corps or Stations, at the Cape or elsewhere, will be allowed to absent Officers under these Regulations.

"16. All Officers, whether Staff or Regimental, while on leave of absence on sick certificate, will be entitled for a period of six months to the same rate of Indian Pay and Allowances as was allowed under the Old Regulations, to Officers proceeding to the Cape on medical certificate, and for the remaining period of their leave they will receive Furlough Pay only.

"17. If the leave on sick certificate be extended, Furlough Pay will be continued, but under no circumstances for a longer period than three years altogether from the commencement of the absence.

"STAFF OFFICERS.

"18. The term 'Staff Officers' applies to all Officers holding Staff or detached appointments, Military (General or Regimental), Political, or Civil; also to General Officers commanding Divisions, Members of the Medical Board, Superintending Surgeons, and others who under the Old Rules were entitled to draw half Staff Allowance when absent at the Cape. (See G. G. O. No. 111, of 30th January 1856, following Rule 31.)

"19. Staff Officers absent on leave beyond the periods stated in Rules 9 and 13, respectively, cannot retain their appointments and allowances, except on special grounds, to be sanctioned by the Government of the Presidency. Any such special grant of leave is to be reported at once to the Honorable the Court of Directors, with the reasons for it, and to be subject to their approbation.

"20. The privilege of retaining Staff appointments during leave of absence on sick certificate, or on Furlough on private affairs, will not be available a second time, if the fresh leave is on sick certificate, until an Officer has been three years, or if on private affairs until he has been six years, in the discharge of the duties of his appointment from the date of last return to it.

G. O. C. 27th August 1855.—With the sanction of Government, the following decision of the Government of India is published to the Army:—

"Under the New Furlough Rules, Furlough granted without Pay or other privileges, does not bar privileged leave hereafter."

"21. This Rule, however (No. 20), does not apply to leaves of absence, whether on sick certificate or on private affairs, in India, or for brief periods to Ceylon, the Mauritius, or other places out of India.

G. O. C. 12th July 1856.—The Government of India has fixed three months as the maximum period which is to be understood by the terms "short leaves" and "leaves for brief periods" used in Rules 7 and 21 of the New Furlough Regulations.

"22. Officers commanding Troops of Horse Artillery and Light Field Batteries, and Officers generally in employment, will be allowed leave out of India, under the same Rules with respect to allowances and tenure of command or office as regulated the grant of leave to the Cape to such Officers under the Old Regulations, except as to the duration of those advantages, the time for their continuance being subject to the provisions of the New Regulations.

"DATE OF FURLOUGH, AND ADVANCES OF PAY.

"23. The period of Furlough on private affairs, or leave of absence on sick certificate, is to be calculated from the date of the departure from India of the ship in which the Officer proceeds.

"24. Advances of Pay and Allowances, Staff and Regimental, to Officers proceeding on leave of absence on sick certificate, who may be entitled to them, will be made in India for three months from date of embarkation. Payments in continuation will be made in England at the rates of exchange fixed annually for repayment of advances made on account of Her Majesty's Government. Furlough Pay will continue to be issued in advance for six months when required by Officers obtaining Furlough on private affairs.

G. G. O. No. 193, of 27th February 1856.—The Right Honorable the Governor in Council is pleased to notify to the Army, that it has been decided by the Government of India that every Officer proceeding to a British Colony within Indian limits, is entitled to the advance of pay authorised in the first Clause of Rule 24 of the New Furlough Regulations, but that such Officer shall be required to appoint an agent in India to draw the arrears which may accrue to him during furlough on either sick certificate or private affairs; if such an agent be not appointed, payment of the arrears shall be postponed till the return of the Officer to India; and every agent shall be required to give a sufficient guarantee for the refund of any payment that may fail to be recovered.

"25. The existing Regulations regarding Passage Money to Officers are not affected by these Rules.

"26. The certificates issued to Officers who are granted Furloughs on private affairs, or leave of absence on sick certificate, are to specify the time each Officer has been absent on leave within Indian limits, as well as the time of his previous absence in Europe, but will not include the periods allowed for proceeding to the Presidency or port of embarkation, and to enable Officers to rejoin their Regiments or Stations after their return to India, nor the leave of one month's absence in six months as authorised by the Regulations. The last Pay Certificate of all Officers proceeding to England on sick certificate is to specify the rate of Regimental Pay and Allowances and Staff Salary to which they would have been entitled under the Old Regulations if proceeding to sea on medical certificate. This information is necessary, in order that no difficulty may arise in the Pay Department of the India House in adjusting the several payments which may be due. (See various Orders following Rule 31.)

G. O. C. 27th April 1855.—With the sanction of the Right Honorable the Governor in Council, the following decisions of the Government of India, on points connected with the revised New Furlough Rules, are published to the Army:—

Question.

"Is it only such leave (not exceeding thirty days in six months) as may be granted under the special Regulation contained in G. O. G. I. No. 341, dated the 20th March 1851, that is to be allowed to count as service; or will Officers who may be absent from their Stations, on leave granted to them under the ordinary Regulations, 'for short periods to sea,' or for from one day to six months, between the 1st January and 1st July, and *vice versa*, whether on private affairs or sick certificate, be entitled to have a period not exceeding thirty days of such leave counted as service?"

Decision.

"Any short leaves are not to reckon against an Officer's length of service, but all leaves announced in General Orders, which in the aggregate exceed the periods laid down in paragraphs 32 to 36 of the Government of Bombay G. G. General Order* No. O. No. 778, 6th 1150, of the 17th November last, count against service, and no deduction can be made from such leave, except for the period allowed an Officer preparatory to embarkation, and to enable him to rejoin his Corps or Station on his return to India."

"An Officer who has obtained leave for six months, or any other period in *General Orders*, is not allowed to deduct the thirty days' privileged leave which he might have taken without its being announced in General Orders. In such a case, the whole period announced in General Orders reckons against his service."

G. O. C. 17th September 1855.—With the sanction of Government, the following decision of the Government of India, having reference to Rule 26 of the New Furlough Regulations, is published to the Army:—

"Short leaves on private affairs for periods not exceeding thirty days, which have been granted to Officers in General Orders previously to 6th December 1854, are to be counted as privileged, provided they do not exceed an aggregate of thirty days in each half year."

G. G. O. No. 857, of 12th November 1855.—With reference to the Regulations

Art. 16, Clauses 1 to 4, Sect. XIV. Jameson's Code.

Arts. 316 to 319, Sect. XXVI. 1st Appendix Jameson's Code.

Arts. 124 to 126, Sect. XXXIII. Jameson's Code, page 938.

Right Honorable the Governor in Council is pleased to declare the following rule, obtaining under the Bengal Presidency, to be applicable to this Presidency also, from this date:—

"The thirty days privileged leave is to be calculated so as to include the day of return as one of leave, i. e., if leave be granted on the 15th July, the Officer must rejoin on the 13th of August."

"OFFICERS OF HER MAJESTY'S SERVICE.

"27. Officers of Her Majesty's Service in India, whether employed Regimentally, or in Staff or detached situations, are entitled to the advantages above laid down in respect to allowances and tenure of office when on Furlough or leave of absence.

"28. In the case of officers of Her Majesty's Service on Furlough or sick certificate, in England or elsewhere, who may retire or exchange into Regiments not on the

Indian Establishment, the grant to these Officers of Indian Allowances will cease from the date of their retirement or exchange, if it take place before the expiration of six months from the date of quitting India.

"PERIODS OF ABSENCE ALLOWED TO BE COUNTED AS SERVICE FOR RETIRING PENSIONS."

"29. In order that all Officers quitting India, on Furlough or sick certificate, may be placed on an exact equality as regards loss of time, the period allowed by Regulation for proceeding to the Presidency or to the nearest port of embarkation, as well as the time to enable Officers to rejoin their Corps or Stations after their return to India, will be considered as time counting for service for the Retiring Pension. (See various Orders following Rule 31.)

The distances in the "fair season" are entirely by land, or partly by land and partly by water, whichever is the most expeditious. Both by sea and river the passage is estimated by "country boat," and the month in which the longest passages occur has been taken as the standard for the average length of passage.

The "fair season," as regards sea or river passage from, to, and in Scinde, is estimated to commence on the 15th October and end on the 15th April.

The "fair season," as regards all other water passages, lasts from the 15th of October to the 15th of May.

When the distance is entirely by land, ten miles per diem is allowed, without halts, by the nearest marching route.

G. O. C. 23rd June 1855.—With reference to the New Furlough Regulations, the Commander-in-Chief is pleased to direct that in future, Officers, not above the Regimental rank of Captain, who may return from Furlough or leave of absence beyond Presidency limits during the monsoon, or who, being on sick leave within Presidency limits, may be reported fit for duty during that season, viz. between the 1st June and 1st October, shall be permitted, in the event of their own Corps being too distant to admit of their at once rejoining, to do duty until the latter date with Regiments at the Presidency, or other Stations at or near which they may be at the time, unless they should obtain leave of absence in extension on private affairs.

Officers belonging to Regiments at Neemuch, who may be circumstanced as above, will remain attached to other Corps until the 15th December.

G. G. O. No. 235, of 8th March 1856.—The Right Honorable the Governor in Council is pleased to announce that the following Rule will be observed in calculating the periods of Officers' absence on furlough in or beyond India :—

As respects Furlough in India, the day of departure from a Regiment or appointment is one of leave, and the day of return thereto is one of duty.

As respects Furlough beyond India, the date of final departure from India, viz. that on which the vessel conveying the Officer from India puts out to sea, is reckoned as one of Furlough, and the day on which he returns to his Presidency as one of duty.

G. G. O. No. 120, of 28th January 1857.—Under instructions from the Government of India, the Right Honorable the Governor in Council is pleased to direct that the rule promulgated in G. G. O. No. 235, dated 8th March 1856, regarding absence on Furlough, shall be held applicable to privileged leave.

" 30. No Furlough or leave of absence, as announced in General Orders, exceeding two years in twenty years' aggregate service, three years in twenty-five years' service, and four years in thirty years' service, shall be allowed to count as service for the Retiring Pension; and no difference will be made in this respect between leave of Absence taken in Europe or elsewhere, in or out of India, or whether the leave be on sick certificate or on private affairs. (See various Orders following Rule 31.)

G. G. O. No. 183, of 23rd February 1856.—The Right Honorable the Governor in Council is pleased, with the sanction of the Government of India, to declare that the period during which Officers may have been, or may hereafter, be absent on leave for the purpose of accompanying Insane or Sick Officers, is allowed to reckon as service for Pension under the New Furlough Rules, to the extent of the regulated travelling days.

G. G. O. No. 273, of 18th March 1856.—The Right Honorable the Governor in Council is pleased, with the sanction of the Government of India, to declare that Officers returning from Furlough to Europe, and intending to adopt the Overland Route, who may be ordered to do duty with Recruits proceeding to India via the Cape of Good Hope, shall reckon service for Pension under the New Furlough Regulations from the date of arrival at their respective Presidencies of the Overland Mail Steamers on which they would otherwise have proceeded.

" 31. In the term 'leave of absence as announced in General Orders' is to be included all leave of absence except the period allowed in Rule 29, and the ordinary indulgence of one month's leave in six months, as authorised by the existing Regulations, and which are in all cases, whether of Regimental or Staff Officers, to be allowed to count as service for Pension. All leave to a greater extent, granted by Political and other Authorities, which may not hitherto have been published in General Orders, must be so announced hereafter.

G. O. C. 29th May 1855.—With reference to Rules 26 and 31 of the New Furlough Regulations, and to G. O. C. No. 1, dated 26th ultimo, the Commander-in-Chief is pleased to establish the following Rules, in supersession of existing Orders, with respect to the grant by Officers commanding Regiments, Stations, and Divisions or Forces of leave of absence on private affairs to Officers (Staff and Regimental) serving under their respective commands.

1. The periods for which leave may be granted are limited as follows :—

By Officers commanding Regiments, subject to the control of Officers commanding Stations :

For periods not exceeding three days in the calendar month (between musters), within the Division or District, and limited to an aggregate of ten days in six months, between the 1st January and 1st July, and *vice versa*.

By Officers commanding Stations, subject to the control of Officers commanding Divisions or Forces :

For periods not exceeding ten days in the calendar month (between musters), within the Division or District, and limited to an aggregate of twenty days in six months, between the 1st January and 1st July, and *vice versa*, exclusive of leave granted by Officers commanding Regiments.

By Officers commanding Divisions or Forces :

To the extent of thirty days in six months, between the 1st January and 1st July, and *vice versa* (irrespective of musters), within or beyond the limits of the Division or District, and exclusive of leaves granted by Officers commanding Regiments and Stations.

II. All leave which may involve absence from the Station for one or more nights, must be sanctioned in public Orders.

III. The period of leave specified in public Orders is to be understood as including the whole period of an Officer's absence from his Corps or Station, except when expressly sanctioned in extension of leave previously granted.

IV. Commanding Officers are strictly prohibited from granting leave of absence in extension of the periods for which leave may have been sanctioned by any authority superior to their own.

V. In every application for leave of absence, the total period of leave previously enjoyed since the 1st January or 1st July is to be specified.

VI. When leave beyond the limits of the Division or District may be granted by Officers commanding Divisions or Forces, the place to which it is granted must be specified in the Order, except when sanctioned under the special provisions of G. G. O. No. 211, dated 14th April 1851 (Jameson's Code, Arts. 216 to 219, Section XXVI).

VII. Leave of absence under the provisions of the G. G. O. quoted in the preceding paragraph can be sanctioned in those cases only in which Officers shall declare their *bona fide* intention to rejoin their Stations at the expiration of the leave applied for.

VIII. Officers commanding Stations may grant permission to Officers to proceed to places beyond the limits of the Division or District, in anticipation of the sanction of Officers commanding Divisions or Forces, in cases of pressing emergency, to be specially reported.

IX. Officers commanding Regiments, Stations, and Divisions or Forces, who may desire leave of absence, must await the sanction of the next superior authority before quitting their commands, except in cases of pressing emergency, which must be specially reported.

X. Medical Officers must obtain the sanction of the Superintending Surgeon before submitting applications for leave of absence from their Stations for any period exceeding three days.

XI. All Officers are required to provide themselves with copies of the Orders granting them leave of absence, and in reporting their arrival at any Military Station they are to specify the periods for which they may have obtained leave.

XII. It is to be distinctly understood, that with the exception of the short leaves within Divisions or Districts, which Officers commanding Regiments and Stations are above empowered to grant, no leave of absence on private affairs in excess of thirty days in six months can be sanctioned under any authority but that of the Commander-in-Chief or Government, duly announced in General Orders.

G. G. O. C. 22nd June 1855.—It being required by the New Furlough Regulations that all leaves of absence on *medical certificate*, whether within or beyond India, and for whatever period, shall be announced in General Orders, the Commander-in-Chief calls the attention of Officers commanding Divisions or Forces, and Stations, to those Regulations, and directs that extracts of all Orders granting Officers leave of absence from their respective Stations, on *medical certificate*, be duly transmitted on the day of issue to Army Head Quarters, for publication in General Orders. When the medical certificate sets forth that the leave applied for by any Officer is necessary for the purpose of obtaining a final certificate to proceed to any place out of India, the purpose is to be specified in the Order, in view to the regulated travelling days being credited to the Officer in the Register of Furloughs.

G. G. O. No. 643, of 20th August 1855.—The Right Honorable the Governor in Council is pleased to direct that every Officer proceeding on leave be required to certify the dates of his departure from and return to his Station, and that in every application preferred for leave on *private affairs* within Presidency limits, the applicant be required to specify the total period of such leave previously enjoyed since 1st January or 1st July immediately preceding.

G. O. C. 5th September 1855.—Consequently on the New Furlough Regulations, a Register of all Furloughs and leaves of absence in and beyond India, granted to Officers in General Orders, between the 1st January 1818 and the present time, has been prepared at the Adjutant General's Office at the Presidency, where every Officer will be at liberty in future to see and take a copy of his own registered leaves of absence, or to depute any other person, by a letter to the Assistant Adjutant General in charge of the Bombay Office, to do so for him. As there are probably many cases in which Officers may not have availed themselves of the full periods of the leaves in India sanctioned in General Orders in past years, the unexpired portions (not already cancelled) of all such leaves will be credited to them, and the Register corrected accordingly upon Officers furnishing certificates from Regimental or Station Staff Officers, or (should the existing official records not afford the information) certificates upon honour, under their own signatures, of the dates on which they actually quitted and rejoined their respective Corps or Stations; provided the certificates be received at the Adjutant General's Office at Bombay within six months from this date, if the Officer be now in India, and if absent *beyond India*, within six months from the date of his return.

As every Officer will be able, under the provisions of this Order, at all times to inform himself regarding the total period of his service in India counting for Pension, the Adjutant General's Department is entirely exempted from hereafter furnishing certificates of service to individual Officers.

Officers will address their communications on the subject of this Order to the Assistant Adjutant General at the Presidency, postage paid.

G. O. C. 22nd September 1855.—With a view to obviate the necessity for cancelling in General Orders the portions of leaves of absence, *within Presidency limits*, granted in General Orders to Officers under the New Furlough Regulations, of which they may not have availed themselves, the Commander-in-Chief is pleased to notify, under the authority of Government, that all Officers will have such portions of their leaves credited to them in the Furlough Register in the Adjutant General's Office, provided they report by letter to the Assistant Adjutant General at the Presidency, within one month from the expiry of the leave, the precise dates of their quitting and rejoining their respective Corps and Stations; and that failing such reports, the whole period of leave published in General Orders will be debited against their service for Pension.

All Officers (howsoever employed) will transmit the above reports *direct* to the address of the Officer in charge of the Adjutant General's Department at the Presidency, postage paid. The reports of Officers serving Regimentally must bear the counter-signatures of the Officers commanding their respective Corps.

G. O. C. 16th October 1855.—Under the authority of Government, the following Rules, sanctioned by the Government of India, are published to the Army, with reference to the New Furlough Regulations:—

"I. All Officers proceeding on or returning from Furlough, or leave of absence 'beyond sea,' will be entitled to one month's preparatory leave at the ports of embarkation and debarkation, in addition to the regulated travelling days, and to count the same as service for Pension, provided they quit their respective Corps or Stations with the avowed intention of applying for leave to sea, or beyond the limits of the Presidency, and provided they proceed direct to the ports of embarkation.

"II. Officers who may be placed on Court Martial or other duty by order of the Commander-in-Chief or Government, while on leave of absence on private affairs, will be allowed to count as service for Pension the periods during which they may be so employed.

"III. Leave to the following extent may be granted to Officers to proceed to the Presidency on duty, for the purpose of being examined in the Native languages before the General Examination Committee, and will reckon as service for Pension, viz:—

"The regulated travelling days; one month for preparatory study at Bombay; and the actual period of detention in attendance on the Committee.

"IV. Officers permitted to attend the Central School at Poona for instruction in

Military attainments, will be considered 'on duty,' and will be entitled to count as service for Pension the regulated travelling days, and six months in addition for residence at Poona.

"V. Officers permitted to proceed to Stations at which Mounted Corps are located, for the purpose of going through the prescribed 'Infantry Course' of Equestration Drill, will be considered 'on duty,' and will be entitled to count as service for Pension the regulated travelling days, and two months in addition for residence at the Station."

G. O. C. 5th December 1855.—With reference to G. G. O. No. 857, dated the 12th ultimo, the Right Honorable the Governor in Council has been pleased to decide, that in all cases of leaves of absence on private affairs, which have been granted in General Orders previously to the date of the Order above quoted, for "one month" (whether taken between or irrespective of musters), and in which the leaves may be shown to have been granted as "privileged," the Officers shall be held entitled to reckon thirty days of such leaves for Pension, notwithstanding that they may have been actually absent from their Stations for thirty-one or thirty-two days, the day of return included.

The Right Honorable the Governor in Council has been pleased to decide that all leaves of absence on private affairs, within Presidency limits, which have been or may hereafter be granted to Officers on their return from Furlough or leave beyond sea, or on being relieved from Staff or other detached duty, in consideration of their being prevented by the Rules contained in Articles 31, 86, and 87, Section XXXII. Jameson's Code, from at once proceeding to join their Stations in Scinde or Rajpootana, shall reckon as service for Pension under the New Furlough Regulations.

When practicable, Officers so circumstanced will in future be employed on duty, or attached to some Corps, until the season shall admit of their joining their respective Stations.

G. G. O. No. 111, of 30th January 1856.—Referring to that part of the General Order by the Governor General of India of the 17th November 1854, which regulates the period of absence to be counted as service for the retiring Pensions of Officers of the Army, the Right Honorable the Governor in Council is pleased to prescribe the following Rules regarding the notification of leave of absence granted to Officers of the Staff, with a view to the maintenance of an accurate Register in the Office of the Adjutant General, and in order that all Officers quitting India may be placed on an exact equality as regards loss of time counting as service.

The term Staff, as declared in the 18th paragraph of the above General Order, applies, for the purposes of these Regulations, to all Officers holding Staff or detached appointments, Military, Political, or Civil.

The following Rules are intended to apply only to Officers serving immediately under Government, or in offices or Departments not immediately subordinate to Army Head Quarters. For Regimental and other Officers, serving directly under the orders of the Commander-in-Chief, His Excellency will be pleased to lay down such rules as may appear to be most appropriate and convenient for the required object:—

1st.—All leave of every description, privileged or unprivileged, which is granted by Government, is to be notified in the Military General Orders.

2nd.—Every Order granting leave of absence is to express the date from which it is to commence, and the date to which it is to extend.

3rd.—Officers who have not availed themselves of the full period of leave granted to them, are authorised to notify the circumstance with full particulars to the Adjutant General's Office at the Presidency by letter (postage paid), within one month from the expiration of the leave, and such correction as is proper will then be made in the Furlough Register; failing such Notification, the entire period of leave published in General Orders will be debited against their service for Pension.

4th.—In order to ensure still further the correctness of the Register, returns will be made by the Military Auditor General, and by the Civil Auditor, half yearly, showing the leave, privileged and unprivileged, which has been taken by officers serving immediately under the orders of Government.

5th.—No Officer is to quit his Station until leave is regularly granted him by the proper authority; and all Officers are to return to their Stations within the term of leave granted to them, failing which they will be considered as absent without leave, and be subjected to the penalties of that condition.

G. G. O. No. 230, of 8th March 1856.—The Right Honorable the Governor in Council is pleased to announce that the maximum period for which an Officer can

be absent from his Regiment or appointment on privilege leave, whether between musters or irrespective of muster, is thirty days in each half year.

G. G. O. No. 956, of 22nd December 1856.—If an Officer obtain privilege leave for one month, and in extension thereof obtain one month's leave on private affairs in the following month, he is entitled to count the first month as privilege leave; but in the case of an Officer obtaining leave to proceed to the Presidency preparatory to embarking for Europe on Furlough under the New Furlough Regulations, no portion of such preparatory leave can be treated as privilege leave.

Should an officer who is on privilege leave not rejoin his Corps, but be absent in continuation, on not more than five months' leave on private affairs, or one year and eleven months' leave on medical certificate, he will retain his full salary or allowances for the thirty days of privileged leave, which will also count as service; but he will nevertheless forfeit all military allowances on completing six months' or two years' absence, as the case may be, reckoned from the date that he quitted his Corps or Station.

" 32. Officers, to be entitled to retire on the Full Pay of their Regimental rank (under the Regulation of 1796), must have served twenty-two years in India, out of which leaves of absence for two years in the aggregate, and not more, will be allowed to count as service for the Retiring Pension.

" 33. Officers, to be entitled to retire on the Full Pay of Captains and Majors (under the Regulations of 1835-37), must have served twenty and twenty-four years respectively, out of which time leaves of absence for two years in the aggregate, and not more, will be allowed to count as service.

" 34. Officers, to be entitled to retire as Lieutenant Colonels, must have served twenty-eight years, out of which leaves of absence for three years in the aggregate, and not more, will be allowed to count as service.

" 35. Officers, to be entitled to retire as Colonels, must have served thirty-two years, out of which leaves of absence for four years in the aggregate, and not more, will be allowed to count as service.

" 36. The scale for Medical Officers and Veterinary Surgeons, of privileged Furlough and leave of absence, as counting for the Retiring Pension, will be as follows:—

Years. Months.		
1	8	in 17, and under 20 years' service.
2	0	in 20, " 25 "
3	0	in 25, " 30 "
4	0	in 30, and upwards, "

" 37. It is to be distinctly understood, that under no circumstances whatever will an Officer be permitted to retire on Full Pay until he has completed the *full time of service* above specified, whether he be in England at the close of his service or elsewhere.

G. G. O. No. 878, of 23rd September 1857.—The following Extract, paras. 18 and 19, of a Military Letter from the Honorable the Court of Directors to the Government of India, No. 126, dated 22nd July 1857, are published for general information:—

18.—By the Regulations established for the promotion of Lieutenant Colonels

to the rank of Colonel after three years' service, it is provided that no longer period than one month in each year, or a total of three months in three years, or six months in six years, shall be allowed to reckon, whether the leave shall have been spent in India or out of the country, except in cases of wounds or illness contracted by service in the field, duly certified by a Medical Board, when each case will be separately considered with reference to the time to be allowed.

Letter dated 5th March 1857, No. 28.
Request Court's decision on the question whether leave of absence in or beyond India, taken in consequence of wounds received in action, shall be allowed to reckon as service for pension both under the Old and New Regulations.

19. In reply to the question now put to us, we have much satisfaction in stating that we are prepared to extend the benefit of the exception above specified to the time required for retirement on full pay. Every claim to the benefit of this exception must be duly certified by a Medical Board, and be forwarded to us for our decision, accompanied by the opinion thereon of the Government and Commander-in-Chief of the Presidency to which the Officer belongs.

" 38. The privileged time of absence may, with the permission of the local Govern-

ment, be taken at any time, subject to these Regulations. If, therefore, at the end of twenty years' service, of which eighteen had been passed on actual duty in India, an Officer should be on Furlough or sick certificate, in Europe or elsewhere, he will be entitled to retire on the full Pay of a Captain without returning to India, and so in the other terms of service for the higher Pensions. In like manner, a Medical Officer on Furlough or sick certificate, in Europe or elsewhere, at the end of seventeen years' service, fifteen years and four months of which had been passed on actual duty in India, will be entitled to retire on the lowest rate of Pension without returning to India; and so in the other terms of service for the higher Pension.

"39. These Rules do not in any way affect the existing Regulations regarding the grant of leave in India, or for short periods to sea, whether on private affairs or on sick certificate, except as to the periods of such absence being taken into calculation in the time allowed to count as service for retirement on Full Pay."

G. O. C. 27th April 1855.—With the sanction of the Right Honorable the Governor in Council, the following decisions of the Government of India on points connected with the revised New Furlough Rules, are published to the Army :—

Questions.

"Will all Officers (Staff and Regimental) who may proceed on leave to places 'in India,' whether within or beyond the limits of their own Presidencies, be entitled to receive their Indian Allowances for a period not exceeding six months, if on private affairs, and two years, if on medical certificate, from the dates of their quitting their respective Corps or Stations, as allowed to them under the Furlough Rules?"

"Will Officers holding Staff or other detached appointments, who may so proceed on medical certificate, be entitled to retain their appointments, and to receive half their Staff Salaries, for a period not exceeding two years, as under the Old Furlough Regulations?"

"Will all Officers (Staff and Regimental) under the New Rules, who may proceed on leave for short periods to sea, or 'for brief periods to Ceylon, the Mauritius, or other places out of India' on private affairs, be entitled to receive their Indian Allowances during their absence; and if so, for what period from the dates of their quitting their respective Corps or Stations?"

Decisions.

"It has been expressly declared in Rule 39 that the former Rules regarding the absence of Officers *in India* are not in any way affected by the New Regulations."

"An Officer may proceed to those places only which he could have visited on leave in India prior to the publication of the New Rules, and he can retain any appointment during absence for six months on private affairs and for two years on medical certificate."

"Officers absent for short periods at sea retain their Indian Allowances, the Old Rules on this subject continuing in force."

CIVIL ABSENTEE RULES.

FORT WILLIAM, FINANCIAL DEPARTMENT, THE 8TH JUNE 1855.

The following Rules for the grant of Leave of Absence, for regulating Deductions from Salaries and Deputation Allowances, and for limiting the period of service of Civil Servants, are published for general information, and will take effect in all the Presidencies and Settlements under the Government of India from the date of the publication of this Notification, in supersession of the Rules of the 17th May 1843 and the 25th August 1854 :—

CHAPTER I.

RULES FOR APPLICATION FOR LEAVE OF ABSENCE.

Section I.—No leave of absence from any Office or Station can be granted but by the

NOTE.—This Rule must be considered as superseding the Rule under which Commissioners of the Land Revenue and other Officers have heretofore been allowed to grant leave of absence in Bengal.

Government under which the employment is held, and on the application of the party requiring such leave, saving in such cases as may hereafter be specially excepted. The application must be made publicly, through the regular channel, in the Department to which the applicant may belong.

Section II.—The Official Allowances of the holder of a Civil office quitting his Station without leave will entirely cease from the date of his quitting until his return, or, in the event of his subsequently obtaining leave, to the date of such leave being granted to him.

Section III.—No leave of absence shall have any retrospective effect, except in cases of severe illness, to be attested by medical certificate, conforming in every respect to the directions contained in Section V.

CHAPTER II.

RULES FOR SICK LEAVE.

Section IV.—Upon application duly made, the Government may grant leave of absence on medical certificate to any Civil Servant, to any place in India, in Europe, or elsewhere, as he may consider most conducive to the restoration of his health, without any restrictions whatever as to the places to which he may resort.

Section V.—When an application for leave of absence is made on the ground of ill-health, it must be accompanied by a certificate and a statement of the case from the Medical Officer by whom the applicant has been attended, distinctly stating, from personal observation, the nature of the disease, the symptoms by which it is manifested, the period during which it has existed, as far as the knowledge of the Medical Officer extends, and the necessity for temporary removal to some other place in India, or in Europe, or elsewhere, as laid down in Section IV.; and in case of the applicant visiting the Presidency preparatory to obtain leave, the certificate must be countersigned by the Members of the Medical Board, on their being satisfied, on a perusal of the Medical Attendant's statement of the case, that the leave applied for is absolutely necessary towards his recovery. Should the applicant's Medical Attendant be of opinion that he ought to proceed to a Sanitarium or other place without visiting the Presidency, the certificate must, in the first instance, be countersigned by the Superintending Surgeon of the Division in which the applicant may be located, and afterwards submitted, with the statement of the case, for the consideration and countersignature of the Members of the Medical Board.

The certificate shall be given in the following form :—

"I, A. B., Surgeon at or of —, do hereby certify that E. F., of the Civil Service, is in a bad state of health, and I solemnly and sincerely declare that according to the best of my judgment, a change of air is essentially necessary to his recovery; and do therefore recommend that he may be permitted to proceed to sea (or to such place as the Surgeon may think proper, expressing it in the certificate)."

The following form shall be observed by the Members of the Medical Board or the Superintending Surgeon, in countersigning the Surgeon's certificate :—

"We (or I) do hereby certify, that, according to the best of our (or my) professional judgment, after careful personal examination of his case, we (or I) consider the state of health of E. F. to be such as to render leave of absence for a period of — absolutely necessary (or highly desirable) for his recovery."

An application for extension of leave must, if the applicant be in India, be accompanied by a certificate to a like effect from the Medical Officer by whom the applicant of attended, together with a statement, showing sufficient reason for the extension solicited; and such certificate must be countersigned by the Members of the Medical Board, or by the Superintending Surgeon of the Division in which the applicant may be located, as the case may be, on perusal of the statement. In like manner, if the applicant shall have proceeded beyond the territories under the Government of the East India Company he must furnish a certificate and statement to the required effect from a Surgeon in Physician at the place of his temporary residence by whom he has been attended, *auto attendance*, and the period of it, to be stated, and the certificate to be countersigned by the Examining Physician of the East India Company, if the applicant is in England, or, if not in England, by the principal Medical authority of the colony or country to which the absentee may have proceeded, or some sufficient reason stated for the want of such countersignature, if the certificate be not so countersigned. The Medical Board or Superintending Surgeon, before countersigning a certificate as above mentioned, must either personally examine the applicant, or state some sufficient reason why they or he have or hath been unable to do so. When any of the required particulars are neglected, leave will be refused.

Section VI.—The following conditions will in future attach to leaves of absence granted to Civil Servants who may be declared by a sufficient medical certificate to require such leave for the recovery of their health :—

1st.—The total period of absence, with the privileges hereinafter provided, shall not (save as specially excepted in Clause 5 of this Section, and in Section VII. of these Rules) exceed eighteen months in the whole, nor shall it exceed fifteen months on any one occasion.

2ndly.—The office of the absentee will be considered to be vacated if he shall be absent beyond eighteen months altogether, or beyond fifteen months at any one time, unless he shall obtain leave under Clause 5 of this Section, such absence to be computed, if he shall proceed to a Sanitarium within the Presidency, from the date of his arrival thereat to the date of his quitting the Sanitarium; if to any place beyond the Presidency, but within the continent of India, from the date of his leaving the frontier of his own Presidency to the date of his return thereto; and if he shall proceed to sea, from the date of the sailing of the vessel on which he may have embarked from any port in India which is not more distant from his Station than the ports of his own Presidency, to the date of the arrival at any port within the Presidency to which he belongs, or at any other port which is not more distant from his Station than the port of his own Presidency.

3rdly.—The absentee will be entitled to draw a moiety of his Salary, and the same will be paid to him during such period of absence, provided that he shall in no case draw a larger sum than Rupees 10,000 (£1,000) per annum during that period; in cases in which the emolument of the absentee's office does not exceed Rupees 5,000 per annum, no deduction therefrom shall be made for the period of eighteen months, nor shall such a deduction be made in other cases as shall reduce the allowance below Rupees 5,000 (£500) per annum. In cases in which the Salary of the absentee may not be of that amount, the full Salary will be granted.

4thly.—For the interval elapsing between departure from Station to the commencement of reckoning absence, or between the end of reckoning absence and re-arrival at Station, the absentee will be allowed a special leave for an additional period of one month, two months, or three months, according to the distance to be travelled, as prescribed in Section XX. of these Rules; and during this additional period the absentee will be entitled to draw the same Salary as is allowed by Clause 3 of this Section.

Civil Servants proceeding on sick leave beyond sea, will be allowed special leave for the interval elapsing between departure from Station and the commencement of reckoning absence, and between the end of reckoning absence and re-arrival at Station, for an additional period of four, six, or eight weeks, according as the distance to be travelled shall not exceed 300 or 600 miles, or be in excess of the last-mentioned distance, on the condition that during this additional period the absentee shall be entitled to draw the same rate of allowance as laid down in Clause 3 of Section VI. If the leave on medical certificate be taken in India, the preparatory leave is to be calculated at the rate of one day for every fifteen miles of the distance to be travelled to the Sanitarium. (Notification of the Government of India, 14th October 1857.)

Separate applications for the special leave above referred to are no longer required, in the cases of Civil Servants proceeding on leave on medical certificate. In cases of Furlough on private affairs, separate applications for leave for the purpose of

travelling must still be submitted. (Resolution of the Government of India, 17th April 1857.

Section VI. (As amended by the Government of India on the 22nd December 1858.)—If an absentee shall apply, under medical certificate, to remain absent for a longer period than eighteen months, or fifteen months at any one time, and it shall appear to the Court of Directors to be absolutely necessary, after examination by their Officers in England, that he should do so, the leave which may have been granted him will, under the orders of the Honorable Court, be extended to the limit of two years, with permission to retain office and half salary within the limits enjoined during the extension. If the absentee be in India, the leave may be extended to the limit of three years, under the orders of the Government of India, or the subordinate Governments, on the certificate of a Board of Medical Officers, to be summoned to report on the state of the absentee's health.

Section VII.—If the absentee be compelled by the state of his health, under due medical certificate, to remain absent for a longer period than eighteen months, or fifteen months at any one time, or beyond two years in the case of an extension under Clause 4, he will, as before stated, vacate his appointment; but he will be permitted to receive an Allowance at the rate of £500 per annum if above ten years' standing at the time when the leave was granted, or of £250 if not above ten years' standing at the time when the leave was granted, for such further period of absence as shall not exceed the entire term of three years in the whole. At the expiration of that term, all allowance must cease until he reports his return to his Presidency.

Section VII.—If a Civil Servant of more than fifteen years' service, after having been absent on sick leave for eighteen months in the whole, or for fifteen months at one time, at whatever period of his service such sick leave shall have been taken, shall be again compelled by the same cause to apply for leave of absence, the Government of India and the subordinate Governments may, on special grounds, grant leave of absence for one further period not exceeding six months, during which the absentee may retain his office and half his Salary under the limits above enjoined.

Section VIII.—If a Civil Servant, after fifteen years' service, shall be compelled by ill-health to apply for further leave of absence, he may be permitted on special grounds to obtain it, but his absence will involve the loss of office and salary; the Government of India and the subordinate Governments will, however, respectively, exercise a discretionary power to grant in such last-mentioned cases a Sick Absentee Allowance, not exceeding Rupees 5,000 or £500 per annum, for a further period not exceeding twelve months.

Section IX.—A Civil Servant who has taken sick leave under the Rules of the 17th May 1843 will not be debarred by that circumstance from taking such leave again under the above Rules, with the privilege of retaining office, provided the leave be not granted till three years have expired after his return from his leave under the Rules of 17th May 1843.

Section X.—None of the above-mentioned Rules will be applicable to Members of Council. Each Member may, however, with the special sanction of the Government, be permitted to be absent, under medical certificate, for a period not exceeding six months, retaining his office and receiving half his Salary, which shall be paid to him during such absence; but if his absence shall exceed six months, his office will be vacated.

Section XI.—Civil Servants who may desire to draw their Allowances while absent on account of sickness under the above Rules, will be required to give security, in such amount and form as may be fixed by the Government, for the refund of any excess that may be drawn either by the Agents at the Presidency or by themselves, in case of their coming under retrenchment.

CHAPTER III.

RULES FOR SHORT LEAVE ON PRIVATE AFFAIRS.

Section XII. (As amended by the Government of India on the 8th May 1856.)—The Government may grant to Civil Servants leave of absence to any place in India, Europe, or elsewhere, without any restriction whatever as to the place to which they may resort, for one month in each calendar year, without deduction from the Salaries and Emoluments drawn by such Servants. Such leave, however, will only be granted when the Government is satisfied that no inconvenience will arise from the departure of the officers seeking it. No second leave can be granted under this Rule until the completion of eleven months from the expiration of the last leave, if taken at one time, or from the date of return from any sick leave, or until the completion of six months from the expiration of the last instalment of a leave, if it has been divided. Servants not availing themselves of the indulgence in any one year may obtain, under the like

conditions, leave of absence for two successive months, to commence at or after the expiration of twenty-two months from the termination of their former leave; and if two years elapse without enjoyment of the privilege, leave for three months may, in like manner, be granted at the expiration of thirty-three months from the termination of the last preceding leave; but no leave shall be granted under this Rule for any period exceeding three months. If an Officer shall not return at the expiration of the period of leave granted him under this Rule, he shall forfeit all Pay and Allowance during the time of his remaining so absent without leave; and if he shall so continue absent for more than one month beyond the term granted, his office shall become vacant.

When the leave is divided, it is not necessary that six months should elapse before granting the second instalment provided it is taken in the same calendar year. (Decision of the Government of India, page 1869 of the *Calcutta Government Gazette* of 1856.)

Leave under Section XII. cannot be granted preparatory to Furlough or retirement from the Service, and to have the benefit of its advantages the party must continue to serve, unless disabled by sickness, for three months from the date of his return from privilege leave. (Notification of the Government of India, 19th September 1856.) Preparatory leave may, however, be granted on half salary under the same Notification.

An officer absent on leave under Section XII. cannot draw salary until he returns to his Station. (Notification of 11th July 1856.)

Civil Servants absent from their Stations under medical certificate cannot be admitted to leave under this Rule in continuation of their sick leave; and if while absent under this Rule they be granted extended leave under medical certificate, they shall be considered liable to the Rules applicable to leave of absence on medical certificate for the whole period of their absence.

Civil Servants who have been absent on medical certificate during any portion of a calendar year are not entitled to leave under this Rule during that year; but, in determining the interval necessary to entitle a person to leave under this Rule, no reference will be made to any intermediate leave of absence that may have been granted under Section XIV. Clause 1.

Leave taken under Section XIV. must be held to be an interruption in calculating for the grant of leave under Section XII., and the computation must be subject to renewal from the date of the Civil Servant's return from the former. (Para. 1st of the Honorable Court's Despatch No. 6, of 14th January 1857.)

*Section XIII. (As amended by the Government of India on the 8th May 1856).—*As a general rule, when leave is granted under Section XII., such leave will be in one period only, whether for a whole month or less, and not in detached portions to complete one month; but, as an exception to this Rule, it shall be discretionary with the several local Governments, where good cause is shown for the indulgence, and it is attended with no public inconvenience, to sanction leave of absence under this Rule, to such parties as may not have occasion to apply for the whole at once, in two instalments only, which are not to exceed in the aggregate one month within the calendar year.

*Section XIV. Clause 1. (As amended by the Government of India on 22nd December 1855).—*The Government may, on sufficient cause being shown, grant to a Civil Servant special leave of absence on private affairs for six months to any place in India, Europe, or elsewhere, without any restrictions whatever as to the place to which he may resort; provided, however, that the absentee shall draw no more than one half of his salary and allowances. After an absence of six months any office held by the absentee shall become vacant.

*Clause 2. (As amended by the Government of India on 22nd December 1855).—*The leave granted under this Section, if taken in India, will be computed from the date of the absentee's quitting his Station to the date of his return thereto, and if taken to Europe, or beyond Indian limits, from the date of the sailing of the vessel on which he may have embarked from the Port nearest to his Station, to the date of his arrival at the same on his return to duty. A second leave of the same description cannot be taken till the expiration of six years from the date of return to duty from a former leave. No portion of the half salary allowed to be drawn will be claimable till the absentee shall have returned to his duty.

For the interval elapsing in the case of leave taken to Europe or beyond Indian limits, between departure from Station to arrival at the Port of embarkation, and return to Port and re-arrival at Station, the Government may grant, on the same terms and conditions as the special leave, such an additional period, on the same scale of leave as may

be considered to be absolutely required to enable the absentee to reach the Port of embarkation, or to return from the Port of debarkation to his Station.

Clause 3.—It will be understood that leave under this Section is not to be granted as a matter of course to every applicant, but that it will be the duty of the Government to consider and determine whether the grounds of the application are sufficiently urgent to justify the concession of the leave.

Clause 4. (Notification of Government of India, republished, and dated Bombay Castle, 17th June 1857.)—In the event of a Civil Servant, while absent on special private affairs leave, under Section XIV. of the Rules, falling sick, and being granted extended leave under medical certificate, he shall be considered liable, for the whole period of his absence, to the Rules applicable to leave of absence on medical certificate.

Leave under Section XIV. cannot be allowed in continuation of leave granted under Section XII., (Government Notification 11th December 1855), and cannot be granted by instalments, (para. 85 of the Court's despatch No. 97, of 19th November 1856; Government endorsement No. 323, of the 16th March 1857).

CHAPTER IV.

FURLOUGHS ON PRIVATE AFFAIRS.

Section IV.—In the place of the period of three years (in one term) for which Furlough has hitherto been granted, Civil Servants will be allowed the option of taking a Furlough of three years as at present, or of dividing the Furlough into three periods of one year each, to be taken after successive periods of seven years' service, or into two periods, which may either be of one and two years respectively, or of eighteen months each, provided that in every case the Civil Servant shall declare, on taking his Furlough, whether he intends it to be for twelve, eighteen, twenty-four, or thirty-six months, in order that the Government may make its arrangements accordingly. In case of a division into two periods, the first Furlough must be taken after a residence of not less than ten years, and the second Furlough after a further residence in India of ten years from the date of return from the first Furlough; but Civil Servants returning on Furlough to Europe will continue, as at present, to vacate their offices.

Civil Servants who have had sick leave beyond sea cannot take Furlough to Europe on private affairs until six years from the date of return to their duty from such sick leave. This rule however does not apply to short leave to sea on medical certificate, (page 1544 of the *Bombay Government Gazette* of 1856), nor does it interfere with Civil Servants having special leave under Section XIV. of the Absentee Rules. (Page 1987 of the *Bombay Government Gazette* of 1856.)

Section XVI.—The Furlough Allowance granted during the periods mentioned in the last Section will be at the rate of £500 per annum, and the receipt of it will not, on any grounds whatever, be permitted for any longer period than three years.

Section XVII.—Civil Servants who may have been compelled by sickness to quit their duty under medical certificate, before completing seven years' residence in India, will be entitled to receive, during their Furlough on private affairs taken subsequently to their completion of that period of residence, the ordinary Furlough Allowance of £500 per annum for three years.

Section XVIII. Clause 1.—In applying the foregoing Rules in substitution of those before existing, periods of absence to the limit of three years will count as service in India in the twenty-five years entitling to the Annuity, the present qualification of twenty-two years' residence being retained.

Clause 2.—Absence on medical certificate to the extent of one year will reckon as service and residence in India, and be so computed, in addition to the three years of absence which, under the Clause next preceding, are allowed to be reckoned as Indian service. All periods of short leave of absence on private affairs, taken under Sections XII. and XIV. of these Rules, will also count as service and residence.

Section XIX.—Military Officers employed in the Civil Department will be subject to the Rules laid down in General Order No. 1150, dated 17th November 1854, for the grant of leave of absence and Furlough to Officers holding Military Staff Appointments.

CHAPTER V.

RULES FOR JOINING STATIONS.

Section XX.—There shall be allowed to Officers appointed to any new office the periods of one month, two months, or three months, for joining, accordingly as the distance may not exceed 300 or 600 miles, or be in excess of the last.

NOTE.—The time allowed for joining is computed from the date of the Order reaching the Officer appointed.

mentioned distance. Officers not joining their Station within the said periods, respectively, shall forfeit their Salary for the time delayed in excess of the above periods; and if such excess shall exceed one month, the office shall be vacated, unless otherwise specially ordered by Government.

Section XXI.—Upon the first appointment of any Civil Servant, who shall be reported as qualified for Public Service by the examiners appointed by the Government, to any Civil Station, there shall be allowed for travelling expenses, to the Station an Allowance at the rate of 8 annas per mile by the direct post road, according to the Poly-metrical Tables of the Post Office, the bill for which Allowance will be passed by the Civil Auditor after the Officer shall have joined the Station; if required in advance, an order of the Government shall be necessary.

Section XXII.—The salary of office will be payable from the date only of the Officer joining, but in case of Junior Civil Servants, the Salary of Assistants will be payable from the date of their being reported qualified for the Public Service, unless forfeited under the preceding Rule through delay in joining the Station to which they may be appointed.

Section XXIII.—In case of a change of Office, when an Officer is appointed to a higher situation, he shall not draw the higher Salary until he joins. For the period occupied in travelling, the Rule No. XX., regulating the time and distance for joining Station, shall be applicable; and the Officer will, for the periods allowed in that Rule, respectively, draw out of the Salary of the office he is about to join a sum equal to that of his previous situation.

CHAPTER VI.

RULES FOR DEPUTATION ALLOWANCES.

Section XXIV.—The sum of Company's Rupees 52,200 per annum having been fixed, under the orders of the Court of Directors as the maximum Salary of Civil office for the offices of Government under the situation of Member of Council, Civil Servants who may draw larger Allowances than this annual sum, as a consolidated personal and sumptuary Allowance, in consideration of the necessary expenses of their position, will, in all cases of absence, be treated in respect to deductions as drawing only the Allowance thus limited;

NOTE.—This rule will equally apply in case of a Political Resident taking a leave of one, two, or three months, for which in other cases he would suffer no deduction. The excess above the maximum monthly Salary will in that case be enjoyed by the person in charge. and the excess above the monthly Salary yielded by that annual sum shall remain as a local addition to the usual Deputation Allowance to be drawn by the Officer performing the duties, to meet the necessary expenses of his position; provided, however, that in the cases of Civil Servants appointed to offices of the description referred to subsequent to the 2nd June 1854, the sum of Rupees 50,000 shall be held to be the maximum Salary, under the Government Resolution No. 563, of that date.

Section XXV.—Deputation Allowances shall be granted to Civil Servants temporarily performing the duties of an office according to the following rates, and subject to the limitations and conditions hereinafter laid down:—

To Civil Servants not holding any substantive appointment, at the rate of 50 per cent. on the monthly Salary of the appointment officiated in, such Deputation Allowance being in addition to the Subsistence Allowance of their respective ranks.

To Civil Servants holding an office of inferior emolument, when officiating in an office of superior emolument, at the rate of 20 per cent. upon the monthly Salary of the appointment officiated in, in all cases in which the salary of such appointment shall not exceed Company's Rupees 2,000 per mensem; and in respect to all appointments of which the Salary shall be more than Company's Rupees 2,000 per mensem, at the rate of 20 per cent. upon Company's Rupees 2,000 and of 10 per cent. on the amount in which the monthly Salary may exceed Company's Rupees 2,000; provided, however, that no lower rate of Deputation Allowance shall be given than Rupees 200 per mensem.

The Deputation Allowance shall in all cases be in addition to the Salary of the substantive appointment held by the Officer on Deputation.

The above rates are granted provisionally, subject to future revision.

In the Punjab, Nagpore, and other places where appointments are by classes, the amount of Deputation Allowances payable at the above rates will be calculated, not upon the Salary of the individual Officer holding the substantive appointment in which the Officer deputed may be temporarily officiating, but on the average rate of Salary attached to the particular class to which the appointments may belong.

A Civil Servant acting for another shall have no claim to Commission or fees, where any such sources of emolument exist. These shall be regarded as forming part of the income of the Officer to be relieved, subject to the prescribed deductions.

A Civil Servant acting in an appointment the Salary of which is to be reduced on the retirement of the present incumbent, will draw Deputation Allowance on the reduced Salary.

An Officer officiating in more than one appointment will be entitled to Deputation Allowance, regulated by the aggregate amount of the Salary of the offices.

An Officer appointed permanently to a higher situation, but prevented from joining his appointment by an order of Government, and detained to officiate in a situation of still higher emolument than the one to which he has been permanently appointed, will be entitled to a Deputation Allowance in addition to the higher Salary to which he has been promoted.

Section XXVI.—No Civil Servant temporarily officiating for another shall draw an amount larger than the entire emoluments of the office in which he is officiating; and if the amount of the Deputation Allowance, according to the prescribed scale, added to the permanent emoluments of the officiating Servant, would exceed the emoluments of the office in which he is temporarily acting, the excess shall not be drawn. But this provision shall not apply to the case of any Officer deputed for special reasons to act in an office of inferior emolument to his own. In cases where an Officer, holding two appointments, on being deputed to officiate for another, shall be relieved only from one, he shall receive no Deputation Allowance, unless the emoluments of the office in which he is deputed to act exceed the united emoluments of his permanent appointments, and in that case the Deputation Allowance shall be limited to the difference.

Section XXVII.—No subordinate Officer acting for his principal or for any other person holding a superior appointment, in the same office or establishment, at the same Station, shall be entitled to any Deputation Allowance until after the expiration of one month, and then the Allowance is not to be drawn in arrears. But a Servant previously out of employment, or who may be deputed to act from a different Station, shall be entitled to Deputation Allowance from the date at which he may enter upon the discharge of the duties to which he has been temporarily appointed.

Section XXVIII.—Civil Servants, if deputed to act at a distance from the Stations where they are employed, or if ordered by Government on special duty, shall be permitted to draw Travelling Allowances at the rate sanctioned in the case of a first appointment.

CHAPTER VII.

RULES FOR LIMITING THE PERIOD OF SERVICE.

Section XXIX.—After thirty-five years' service no Civil Servant shall be appointed to any new office, nor be permitted to retain an office which he has held for a period of five years and upwards, except in special cases, which are to be referred to the decision of the Honorable the Court of Directors. This Rule will be applicable to every Civil Servant appointed to office after its promulgation, and to the case of every other Civil Servant to whom it relates at the close of five years from the 25th August 1854.

CHAPTER VIII.

RULES FOR THE GRANT OF LEAVE OF ABSENCE TO LAW OFFICERS.

Section XXX.—The East India Company's Law Officers may obtain sick leave, and short leave on private affairs, under the conditions prescribed in the case of Civil Servants, both as respects the periods of absence and the limitation of Allowances during such absence. Leave will, however, only be granted at the convenience of the Government and no additional expense will on any consideration be incurred by the Government on account thereof.

If any Law Officer shall quit his duty, save on leave under medical certificate or on leave on private affairs, he will be considered to have vacated his appointment.

CHAPTER IX.

RULES FOR CHAPLAINS AND ASSISTANT CHAPLAINS.

Section XXXI.—Chaplains and Assistant Chaplains may take furlough on private affairs and on medical certificate; also privilege leave and leave for short periods on private affairs and on medical certificate in or out of India, on the same terms and conditions as Military Officers, with the following modifications:—

Chaplains being allowed to retire after twenty years' service, the period of furlough on private affairs is in their case limited to the present term of three years. Furlough may, however, either be taken in one period or be divided into two periods, of eighteen months each, or of two years and one year respectively, and if

divided, the first Furlough may be taken, as at present, after seven years' residence, and the second Furlough after a further residence of ten years in India. As respects Chaplains and Assistant Chaplains appointed before the 11th January 1854, when the period of service was only eighteen years, their second Furlough, if they should exercise the option of taking Furlough in two periods, will be available after a second residence in India for a term of eight years.

2ndly.—No Furlough or leave of absence, whether on private affairs or on sick certificate, taken in Europe or elsewhere out of India, in excess of three years, will be allowed to count as service in India in the twenty years which qualifies Chaplains for their Retiring Pensions.

The new Rules not to have retrospective effect so as to deprive Chaplains of the privilege of counting as service leave already taken under the old Rules. (Para. 3 of the Honorable Court's despatch No. 21, of 5th March 1856.)

Section XXXII.—The Furlough Pay of Chaplains will remain as at present. With regard to their Allowance during sick leave to any place out of India, they shall receive Salary (but at a rate not exceeding £600 per annum) for the first six months of absence, and, for the remaining twelve months, an Allowance equal to the Furlough Pay of their standing. If the leave be extended, an Allowance equal to Furlough Pay may be drawn for a further period of eighteen months.

Chaplains and Assistant Chaplains may be granted leave of absence in India on medical certificate to the extent of one year on their full salaries, subject to a deduction of one-third, but not to reduce the salary below Rs. 500. (Para. 4 of the Honorable Court's despatch No. 21, of 5th March 1856.)

Chaplains and Assistant Chaplains may have privilege leave once in every six months, and be allowed accumulated privilege leave to the extent of three months after eighteen months' continuous duty. (Para. 5 of the same despatch.)

Chaplains and Assistant Chaplains granted sick leave to Europe or beyond sea, to receive salary at the rate of Rs. 500 for the first six months, and their Furlough Pay for the remainder of their leave. (Para. 4 of the Honorable Court's despatch No. 78, of 5th September 1855.)

Leave under Section XII. cannot be granted preparatory to Furlough or retirement from the Service; and to have the benefit of its advantages the party must continue to serve, unless disabled by sickness, for three months from the date of his return from privilege leave. (Notification of the Government of India, 19th September 1856.) Preparatory leave may, however, be granted on half salary under the same Notification. (Declared applicable to Chaplains and Assistant Chaplains by Government Letters No. 1, of 3rd January, and No. 87, of 5th March 1857.)

UNCOVENANTED ABSENTEE RULES,

PASSED BY THE GOVERNMENT OF INDIA UNDER DATE THE 5TH MARCH 1857.

CHAPTER I.

RULES FOR APPLICATION FOR LEAVE OF ABSENCE.

Section I.—Leave of absence to officers not in the covenanted service of the East India Company, receiving their appointments direct from Government, will be granted by the Government only under which office is held, on application made publicly through the regular channel in the department to which the applicant may belong; but in respect of all other officers it will be optional with the local Governments to delegate to heads of offices or departments, power to act upon the rules without special reference to higher authority.

Section II.—Absence without leave will render the absentee liable to loss of appointment, and will be attended with entire forfeiture of salary for the whole period of such absence.

Section III.—No leave of absence shall have any retrospective effect, except in cases of severe illness, to be attested by medical certificate, conforming in every respect to the directions contained in Section IV.

CHAPTER II.

RULES FOR SICK LEAVE.

Section IV.—When an application for leave of absence is made on the ground of ill-health, it must be accompanied by a statement of the case from the medical man by whom the applicant has been attended, distinctly stating, from personal observation, the nature of the disease, the symptoms by which it is manifested, the cause by which it has been probably produced, and the period during which it has existed, so far as the knowledge of the medical officer extends; and by a certificate from the chief medical officer of the station or district, or if at a Presidency town, from a Presidency or other official Surgeon, certifying, after careful personal investigation, the necessity for temporary removal, and the period for which absence is, to the best of his judgment, absolutely requisite for restoration to health. If the requisite leave be for a longer period than six months, the certificate must in the first instance be countersigned by the Superintending Surgeon of the division in which the applicant may be located; and in cases of leave beyond sea, be afterwards submitted, with the statement of the case, for the consideration and countersignature of the Members of the Medical Board.

The certificate shall be given in the following form :—

“ I, A. B., Surgeon at or of —, do hereby certify that E. F. (here enter designation of office) is in a bad state of health, and I solemnly and sincerely declare that, according to the best of my judgment, a change of air is essentially necessary to his recovery; and that the circumstances of his case are such as to render leave of absence for the period of — absolutely necessary (or highly desirable).”

The following form shall be observed by the Superintending Surgeon and Members of the Medical Board in countersigning the certificate :—

“ I (or we) do hereby certify that according to the best of my (or our) professional judgment, after careful consideration of his case, I (or we) believe the state of health of E. F. to be such as to render leave of absence for a period of — absolutely necessary (or desirable) for his recovery.”

An application for extension of leave must, if the applicant be in India, be accompanied by a certificate to a like effect from the medical officer by whom the applicant is attended, together with a statement showing sufficient reason for the extension solicited; and such certificate must be countersigned by the Members of the Medical Board, or by the Superintending Surgeon of the division in which the applicant may be located. In like manner, if the applicant shall have proceeded beyond the territories under the Government of the East India Company, he must furnish a certificate and statement to the required effect from a surgeon or physician, at the place of his temporary residence, by whom he has been attended; such attendance and the period of it to be stated, and the certificate to be countersigned by the examining physician of the East India Company if the absentee is in Europe, or by the principal medical authority of the colony or country to which the absentee may

have proceeded; or some sufficient reason stated for the want of such countersignature if not produced.

The officer countersigning must either personally examine the applicant, or state some sufficient reason why he has been unable to do so; when any of the required particulars are neglected, leave will be refused.

Section V.—Leave of absence will be granted under the following limitations to servants who may be declared by a sufficient medical certificate to require leave for the restoration of their health:—

1. The limit to leave on medical certificate is fixed at three years during the entire period of service, of which not more than two years may be continuous, and two years only will be permitted to reckon as service qualifying for pension.

2. Leave of absence on medical certificate will not be granted for a longer period than twelve months at any one time, which may, however, be extended, if necessary, under renewed medical certificate, for periods not exceeding six months within the limit of two years continuously. After a continuous absence of two years on medical certificate, an interval of two years shall elapse before further leave on that account is granted.

3. During one year of the entire period of absence under this rule, the absentee will be subjected to a deduction of one-half, and during the remainder to a deduction of two-thirds of his allowances; provided, however, that he shall in no case draw a larger sum than Rupees 6,000 (£600) per annum.

4. In cases of extreme urgency the heads of offices are authorised to grant leave of absence on medical certificate to the extent of one month, provided the same be immediately reported for the sanction of Government.

Uncovenanted Servants proceeding on sick leave beyond sea, will be allowed special leave for the interval elapsing between departure from Station and the commencement of reckoning absence, and between the end of reckoning absence and re-arrival at Station, for an additional period of four, six, or eight weeks, according as the distance to be travelled shall not exceed 300 or 600 miles, or be in excess of the last-mentioned distance; on the condition that during this additional period the absentee shall draw the same rate of allowance as laid down in clause 3 of Section V. If the leave on medical certificate be taken in India, the preparatory leave is to be calculated at the rate of one day for every fifteen miles of the distance to be travelled to the Sanitarium. (Notification of the Government of India, 14th October 1857.)

Separate applications for the special leave above referred to are no longer required in the cases of Uncovenanted Servants proceeding on leave to Europe on medical certificate. In cases of furlough on private affairs, separate applications for leave for the purpose of travelling must still be submitted. (Resolution of the Government of India, 17th April 1857.)

Section VI.—Parties who may desire to draw their allowances while absent on leave, will be required to give security, in such amount and form as may be fixed by Government, for the refund of any excess that may be drawn in case of their coming under retrenchment.

Personal security sufficient, according to the form laid down. (Notification by the Government of India, 2nd January 1850.)

CHAPTER III.

RULES FOR LEAVE ON PRIVATE AFFAIRS.

Section VII.—Leave of absence may be granted for one month in each year, or, to judicial officers, during the authorised closing of the civil courts, without deduction from salary.

Privilege leave, if taken in broken periods of a month, can be granted in two instalments only, not to exceed one month in the year. If taken for a whole month, eleven months must elapse from the expiration of the last leave, before a fresh leave can be granted; if taken by instalments, six months from the termination of the last instalment taken in the previous year. (Government Notifications, 23rd July and 15th October 1856. Also 2nd para. of Notification, 28th April 1857.) The instalments may be granted within six months, provided they are taken in the same calendar year. (Vide page 1547 of the Calcutta Government Gazette of 1857.)

An Uncovenanted Servant is not entitled to leave on private affairs in continuation of privilege leave. (Notification, 15th November 1856.)

An Uncovenanted Servant not returning at the expiration of his privilege leave, shall forfeit all pay and allowances during the time of his remaining so absent without leave, and if he shall so continue absent for more than one month beyond the term granted, his office shall become vacant. (Resolution of the Government of India, 23rd January 1857.)

Uncovenanted Officers of the Educational Department are not entitled to leave under Section VI. in addition to the leave granted to them during the vacations. (Resolution of the Government of India, 26th September 1856.)

Uncovenanted Servants may, at the option of Government, obtain accumulated privilege leave for two or three months, according as they may have been uninterruptedly at their duties twenty-two or thirty-three months since they last had leave. (Government Notification, 29th July 1857.)

Judges of the Small Cause Court may, with the sanction of Government, obtain leave for one, two, or three months, under Section VII., according as they may have been at their duties eleven, twenty-two, or thirty-three months since they last had leave, and provided they have not during these periods availed themselves of leave during the vacations of the Court. (Resolution of the Government of India, 21st August 1857.)

Section VIII.—In addition to the above, and on sufficient cause being shown, leave of absence may be granted on private affairs for not more than six months, one half the absentee's salary being deducted for such period of absence, provided the rate of Rupees 6,000 (£600) per annum be not exceeded.

Clause 2.—The leave granted under this Section will be computed from the date of the absentee's quitting his post to the date of his return thereto. A second leave of the same description cannot be taken till the expiration of six years from the date of return to duty from a former leave. No portion of the salary allowed to be drawn will be claimable till the absentee shall have returned to his duty.

Clause 3.—Leave taken under this and the preceding section will reckon as service qualifying for pension.

Leave under Section VIII. cannot be granted continuously with leave under Section VII. (Notification, 15th November 1856.)

Section IX.—In addition to the leave which may be granted under the preceding rules on medical certificate or private affairs, Government may at any time, under special circumstances, and at its discretion, grant leave of absence once during the period of service, not exceeding twelve months on private affairs, without forfeiture of appointment, but without pay; such period of absence not to count as service towards pension.

Section X.—No leave of absence on private affairs shall be claimable by any party whatever under these rules as a matter of right; such leave will be granted only at the pleasure of the Government or its authorised officers when the concession of the indulgence in no way interferes with the interests of the public service, and it shall be the duty of the Government in every instance (except in the case of leave granted under Section VI.) to consider and determine whether the grounds of the application are sufficiently urgent to justify the concession of the leave.

CHAPTER IV.

RULES FOR ALLOWANCES, &c.

Section XI.—No person appointed to a situation under the Government shall draw the salary of his appointment for any period prior to the date of his joining it.

Section XII.—An officer holding a situation, appointed to one of equal or higher value, will, until he join, draw so much of the salary of his new office as may be equal to the salary of his former situation; provided he does not exceed the time allowed for joining under the following rules; should he do so, no salary will be passed to him for such period in excess.

Section XIII.—The time ordinarily allowed for joining an appointment is to be calculated at the rate of fifteen miles a day (Sundays excepted), together with a week to prepare for the journey; but on occasions of emergency, it will be optional

with the Government to prescribe the period within which any journey is to be performed.

Section XIV.—A person officiating temporarily in any situation, will draw so much of the salary of such situation as may equal the sum deducted on account of absence from the real incumbent, and the substantive allowances of every officer temporarily acting in a situation of superior emolument will be subject to deduction at the same rate; *but no additional expense is on any account to be incurred by the absence of any officer on leave.*

Medical or Military Officers acting for Uncovenanted Officers to receive extra allowance agreeable to the Civil Absentee Rules. (Resolution of the Government of India, 22nd February 1856.)

Uncovenanted Servants acting for Civil Servants to receive extra allowance at the rate of one half allowed to Civil Servants acting for other Civil Servants. (Government letter, 12th June 1845.)

INDIAN NAVAL FURLOUGH REGULATIONS.

G. G. O. No. 186, of 1st November 1855.—The Right Honorable the Governor in Council, in conformity with the instructions of the Honorable the Court of Directors, is pleased to publish the following Furlough Regulations for the Indian Navy, which are to take effect from this date :—

FURLOUGH ON PRIVATE AFFAIRS.

1. Every Officer will be allowed a Furlough to Europe, or elsewhere beyond sea, for a period of two years, at the expiration of ten years' service, and for a second period of two years after twenty years' service in India.
2. The second Furlough of two years will only be granted after ten years' service in India from the date of the return to duty after the first Furlough of two years. These Furloughs are not to be cumulative under any circumstances, but are limited to two years. Officers who have taken leave of absence on sick certificate to Europe, or elsewhere beyond sea, will be ineligible to a Furlough on private affairs until they have served six years from their last return to duty. This rule does not apply to short leaves to sea.
3. All grants of Furloughs on private affairs are subject to the exigencies of the Public Service, and to the Regulations framed for the preservation of the efficiency of the Indian Navy, by limiting the number of absentees.
4. Officers holding detached or shore appointments may be allowed Furlough for a period of six months without losing their appointment; but during that period they will not be entitled to any portion of their salary, which will be drawn in full by the Officers officiating for them.

The Europe Furlough Pay to be granted in the above cases is as follows :—

	£	s.	d.	
To Captain, the pay of Lieutenant Colonel in the army.....	1	0	0	per diem.
To Commanders, as Majors	0	10	0	ditto.
To Lieutenants and Pursers, as Captains.....	0	10	6	ditto.
To Mates above three years' service as such, as Lieutenants.....	0	6	6	ditto.
To Clerks, as Ensigns.....	0	5	3	ditto.

LEAVE OF ABSENCE ON SICK CERTIFICATE.

6. Leave of absence on sick certificate will be granted for a term not exceeding eighteen months, whether it be to any place in Europe or elsewhere out of India.
7. Extensions of such leave may be granted, as at present, on production of medical certificates, for further periods not exceeding eighteen months in the whole.
8. An Officer holding a detached appointment will be allowed to be absent on sick certificate in England, or elsewhere beyond sea, for a period of fifteen months, without losing his appointment, and during the first six months only of such absence he will be entitled to draw the Indian unemployed shore pay of his rank and half the difference between that and the salary of his appointment, the Officer officiating for him drawing the unemployed shore pay of his rank and the remaining half salary during the first six months, and the full salary of the appointment during the remainder of the time.

When the salary of the appointment is not consolidated, a moiety thereof, with Net Pay of rank, is admitted.

9. An Officer's claim to half the salary for six months, as sanctioned in the preceding rule, will not be affected by his subsequently retiring from the service in Europe, or elsewhere.
10. No portion of Command Allowance, Medical Staff Salary, or other similar allowance, which under the Old Rules was inadmissible to Officers of the Indian Navy absent from their ships at the Cape or elsewhere, will be allowed to absent Officers under these Regulations.
11. All Officers on detached or shore employ, while on leave of absence on sick certificate, will be entitled for a period of six months to pay as above stated, and for the remaining period of their leave they will receive Furlough pay only.
12. If the leave on sick certificate be extended, Furlough pay will be continued, but under no circumstances for a longer period than three years altogether from the commencement of the absence.
13. Officers on detached shore employ, absent on leave beyond the periods stated in

paras. 4 and 8, cannot retain their appointments and allowances, except on special grounds, to be sanctioned by the Government of the Presidency; any such special extension of leave is to be reported at once to the Honorable the Court of Directors, with the reason for it, and to be subject to their approbation.

14. The privilege of retaining appointments during leave of absence, on sick certificate, or on Furlough on private affairs, will not be available a second time, if the fresh leave is on sick certificate, until an Officer has been three years, or if on private affairs, until he has been six years, in the discharge of the duties of his appointment from the date of last return to it.

15. This Rule, however, does not apply to leaves of absence, whether on sick certificate or on private affairs in India, or for brief periods to Ceylon, the Mauritius, or other places out of India.

OFFICERS SERVING AFLOAT.

16. Officers of the Indian Navy are to be allowed, during their absence on sick leave in England, pay as follows:—

Captains.—The shore pay of Captain, Rs. 400 per mensem, being Indian shore or unemployed pay, for the first six months, and afterwards Furlough pay at the rate of £1 per diem.

Commanders.—Rs. 300 per mensem, being Indian or unemployed shore pay, for the first six months, and afterwards Furlough pay, or 16s. per diem.

Senior Lieutenants.—Indian pay, Rs. 191-8-1 per mensem for the first six months, and 10s. 6d. per diem for the remainder of their Furlough.

Junior Lieutenants and Pursers.—Rs. 161-8-1 for the first six months, and 10s. 6d. per diem for the remainder of their Furlough.

Mates above three years' service as such. 6s. 6d. per diem.

Mates under three years' service, and Clerks after six years' service, 5s. 3d. per diem. And,

Midshipmen and Clerks under six years' service, £75 per annum during the currency of their Furlough.

DATE OF FURLOUGH AND ADVANCE OF PAY.

17. The period of Furlough on private affairs, or leave of absence on sick certificate, is to be calculated from the date of the departure from India of the ship in which the Officer proceeds.

18. Advances of pay and allowances to Officers proceeding on leave of absence on sick certificate who may be entitled to them, will be made in India for three months from the date of embarkation. Payments in continuation will be made in England at the rates of exchange fixed annually for repayment of advances made on account of Her Majesty's Government. Furlough pay will continue to be issued in advance for six months when required by Officers obtaining Furlough on private affairs.

Advances are payable for three complete months, and it is optional with Officers to receive or decline the same prior to leaving.

Furlough pay undrawn in England, is payable in India at the exchange of 2s. 0½d. per rupee.

19. The existing Regulations regarding Passage Money to Officers are not affected by these Rules.

20. The Certificates issued to Officers who are granted Furloughs on private affairs, or leave of absence on sick certificate, are to specify the time each Officer has been absent on leave within Indian limits, as well as the time of his previous absence in Europe.

21. The last Pay Certificate of all Officers proceeding to England on sick certificate is to specify the rate of pay and allowances to which they may be entitled.

22. This information is necessary, in order that no difficulty may arise in the Pay Department of the India House in adjusting the several payments which may be due.

PERIODS OF ABSENCE ALLOWED TO BE COUNTED AS SERVICE FOR RETIRING PENSIONS.

23. Officers to be entitled to retire on the Full Pay of their rank (under the Regulations of 1796) must have served twenty-two years in India, out of which leaves of absence for two years in the aggregate, and not more, will be allowed to count as service for the Retiring Pension.

24. All Officers now in the Service, who prefer retaining what may be considered the advantages of the Old Regulations, may do so, provided they signify their wish to that effect when they next apply for Furlough or leave of absence, without any limitation whether such leave be in India or elsewhere; and Officers who once make their election will not be entitled to any other choice, but will be afterwards subject to the New or Old Regulations, according to their decisions.

25. Officers holding shore appointments have not the above option allowed them, but they may retain the advantages of the Old Regulations by giving up their appointments, which in such cases will be considered vacated from the date of embarkation.

26. To those Officers who adopt them, the New Regulations will apply retrospectively in respect of Furlough and leave of absence beyond sea, and in computing their time of service for retirement, so that their Furloughs or leaves of absence, whether under the Old or New Rules, and whether on private affairs or sick certificate, within or beyond India, will count for service to the authorized extent only in computing the time for retirement on Full Pay.

27. These Rules do not in any way affect the existing Regulations regarding the grant of leave in India or for short periods to sea, whether on private affairs or on sick certificate, except as to the periods of such absence being taken into calculation in the time allowed to count as service for retirement on Full Pay.

G. G. O. No. 205 of 1858.—Four years leave of absence allowed to count as actual service in the period of thirty years' service required to entitle an Officer of the Indian Navy to the benefit of the Senior List Pension of £800 a year.

G. G. O. No. 3 of 1859.—The house-rent allowance hitherto granted to sick Officers of the rank of Lieutenant and under, to be designated Sick Allowance, and admissible from date an Officer leaves his ship on sick certificate until reported fit for duty.

G. O. C. 17th August 1859.—Periods of leave on private affairs not exceeding in the aggregate more than sixty days in each year, allowed to count as actual service before introduction of the rule regarding privilege leave.

HER MAJESTY'S HOME TROOPS

STAFF.

Lieutenant General Sir HENRY SOMERSET, K.C.B., Colonel of the 25th Regiment of Foot, Commander-in-Chief of the Bombay Army, served in the Peninsular campaign of 1813-14-15, including the battles of Vittoria, Orthes, Toulouse, and Waterloo; during a protracted service on the frontiers of the Cape of Good Hope, he held a command in the various arduous operations against the Kaffir tribes in 1847 (war medal with three clasps, and the Kaffir medal).

Major General Sir HUGH HENRY ROSE, G.C.B., Colonel of the 45th Regiment of Foot, Commanding the Poona Division of the Bombay Army, served in the operations in Syria in 1810 and 1811, with the rank of Deputy Adjutant General, during which he was wounded in leading a successful charge against Egyptian cavalry near Ascalon. For his "gallant conduct" on that occasion he was recommended by the Seraskier and Colonel Bridgeman, commanding H. M.'s detachments in Syria, for the "Nishan Iftihar," which he received, as well as the Prussian order of "St. John of Jerusalem." He afterwards succeeded to the command of H. M.'s detachments in Syria, and rescued the Christian Prince of Lebanon and the garrison under him, when besieged by the Druses in Deir-El-Kamar. For his services in Syria he was made a Companion of the Bath, and received the Royal Navy medal, the Turkish gold medal, besides being presented with a sabre of honor by the Turkish Government. In April 1854 he was appointed the Queen's Commissioner with the French Army in the East, and accompanied the 1st Regiment of Zouaves when they stormed the Telegraph on the heights of the Alma. Marshal St. Arnaud, in his despatch, noticed his "particularly distinguished" conduct at the battle of Alma, and recommended him for the Legion of Honour. He was wounded in the French trenches before Sebastopol on the 14th of October 1854, and had two horses wounded at Inkerman. Major General Rose was three times mentioned by General Canrobert for his conduct at Inkerman, in the trenches, &c., and was recommended for the order of the Medjidie. He was promoted to be Major General for "distinguished services in the glorious victories in the Crimea"; and was twice honorably noticed by Marshal Pelissier for his conduct in the siege operations and duties, particularly on the 7th September 1856, the day of the capture of the Malakoff. For his services in the Crimea, Major General Rose was made a Knight Commander of the Bath, received the Legion of Honor and the third class of the order of Medjidie, and the Crimean medal with four clasps. Sir Hugh Rose likewise commanded the Central India Field Force throughout the Mutiny of 1857-58, including the relief of Saugor, capture of Ratghur and Shaghur, battle of the Betwa, siege and capture of Jhansi and Calpee, and various other engagements, terminating in the storm and capture of Gwalior, and restoration of the Maharaja Scindia to his capital (G. 6. Every Member shall pay his subscriptions and donations so long as he may continue in the Service. After his retirement he shall not be called upon to contribute to the Fund until he accepts an annuity, when he will be required to pay up the prescribed minimum, in accordance with Section VI. Articles 1 and 2.

7. No subscriptions are *under any circumstances* received in the office of the Fund.

SECTION III.

Of arrears, how recovered.

1. A Subscriber falling in arrears for six months with his monthly subscription, donation, instalments of arrears, or any other payment due by him to the Fund, shall pay double the amount of the arrears, unless he makes it appear to the satisfaction of the Committee that such arrears were occasioned by unavoidable circumstances. All fines thus levied will be

appropriated to the general purposes of the Fund, and not carried to the credit of the party incurring the forfeiture.

2. A Subscriber withholding payment for twelve months of any monthly subscription, donation, instalment of arrears, or any other payment due by him to the Fund in conformity with these Rules, shall, after due warning given by the Secretary, be deemed and taken as withdrawing from the Fund, and shall forfeit all claim and title to any refund or future benefit from it; provided such Subscriber shall have joined the Fund before the 11th September 1834. But in the instance of Subscribers who joined the Fund subsequently to the period of its final sanction by Government, and who are bound by covenant to subscribe to it, withholding payment of arrears for twelve months, it shall be reported to Government that they have broken their covenant.

SECTION IV.

Of the Management.

1. The Management of the Fund is vested in a Committee of seven Members, elected by the Subscribers at large from among those stationed at the Presidency, of not less than three years' standing in the Service.

2. Three of the Members of this Committee go out at the end of each year by rotation, but are eligible for immediate re-election; Voting Lists being annually issued in the middle of November. The removal of a Member from the Presidency to another Station, or his departure on leave of absence for six months or more, is held to vacate his seat.

3. All vacancies occurring in the Committee are filled up by the general vote of the Subscribers, at the earliest opportunity.

4. In the event of an equal number of votes being returned for two or more Members, the election shall be declared in favour of the senior.

5. The Secretary and Accountant is elected by the Committee from their own body, or from amongst the other Subscribers at the Presidency. His salary is Rupees 500 per annum.

6. This officer carries on the detail and routine duties, keeping under the direction of the Committee all necessary records, books, and accounts of the Fund, which are open to inspection by any Subscriber. The office establishment and expenses are confined to what is strictly necessary, and subject at all times on this point to the check of the Committee.

7. The Committee meet once in two months, or oftener if required, for the transaction of business; but none can be entered on unless three Members are present, nor can any bill be drawn against the funds in the Treasury without the signatures of the majority of the Committee.

8. At all meetings of the Committee the senior Member of the Service present shall preside, but he is not on that account entitled to an additional vote. In the event of an equality of votes, the question shall be postponed till a full Meeting of the Committee.

9. In conducting the affairs of the Institution, the Committee shall invariably be guided by its established Rules, deciding minor cases not specially provided for in accordance with their tenor and spirit, but referring all matters of importance to the decision of the Subscribers at large.

10. The Committee shall exercise their discretion in circulating to the Subscribers proposals submitted to them with that view, unless required to do so by ten or more Subscribers, or unless the question be one of personal claim or grievance, when it shall be their duty to submit the matter, with their observations, to the general vote. But if this vote be adverse on any personal question urged against the opinion of the Committee, the expense attending its circulation shall be borne by the individual.

11. Questions submitted to the Subscribers are decided by the votes received within six weeks after circulation.

12. A majority of two-thirds of the votes so received is necessary for passing, altering, or rescinding any Regulation of the Fund.

13. A majority of four-fifths of the votes so received is necessary for altering the present value of the annuities, the present scale of minima, or the present rates of subscriptions and donations.

SECTION V.

Of the Annuities.

1. The annuities already granted shall be reduced 30 per cent. as follows: those of £300 to £210, of £240 to £168, of £200 to £140, and of £160 to £112.

2. The annuities hereafter to be annually offered are fixed at three, of the respective values of £112, £140, and £168 each, payable half-yearly in England up to the date of the annuitant's death.

3. Of these, one annuity is available each year through the Honorable Company's Treasury, but the Fund guarantees the payment in London of the other two, with the same regularity and at the same periods as those paid through the Honorable Company's Treasury.

4. Subscribers must have respectively completed 20, 24, and 28 years in the Service, be-

fore they are qualified for the offer of an annuity of £112, £140, or £168; or, in connection with the Fund out of the Service, in the following manner, viz. :—

1st.—A Subscriber retiring from the Honorable Company's Service upon the Government pension of £191 per annum, at and after the expiration of 17 years' service, 15 years and 4 months of which have been passed in India, will become qualified for the offer of an annuity of £112 as the maximum from the Fund, upon completion of 20 years' Membership.

2nd.—A Subscriber retiring upon the Government pension of £250 per annum, at and after the expiration of 21 years' service, 19 years of which have been passed in India, is immediately eligible for the smaller annuity, if one be available; and he will become qualified for the offer of an annuity of £140, as the maximum from the Fund, upon completion of 24 years from the period of his entering the Service.

3rd.—A Subscriber retiring upon the Government pension of £300 per annum, at and after the expiration of 25 years' service, 22 years of which have been passed in India, is immediately eligible for one of the smaller annuities from the Fund, if available; and he will become qualified for the offer of an annuity of £168, as the maximum from the Fund, upon completion of 28 years from the period of his entering the Service.

5. But in no instance is the qualification of an annuity valid, unless the Subscriber has served the regulated period in India which qualifies for a Government pension.

6. In the event in any year of two or more Subscribers retiring, whose length of service, or connection with the Fund, qualifies them for the higher rates of annuity, the claims of the senior shall be first considered; and should it happen in a succeeding year that no Member retires who is qualified for the higher rates of annuity, the surplus thus accruing shall be appropriated to the increase of those annuities given in the former year to such an amount as the particular Subscriber's length of service, or connection with the Fund, entitles him to receive from the Fund.

7. Members who may resign the Service* in anticipation of an annuity, or who may be absent on furlough, shall empower an agent to accept or decline the offer of an annuity, and to complete the minimum; communicating the name of their constituted attorneys to the Secretary.

8. The annuities for the succeeding year shall be annually declared in the first week of October, and shall at that time be offered to all qualified Subscribers in India, and to the attorneys of absentees. Members must intimate to the Committee, on or before the 1st of January following, their readiness or otherwise to accept such annuity as may be available for them, and, if intending to accept an annuity, transmit at the same an affidavit of their age.

9. In the instance of a Member qualified by 28 years' service, or connection with the Fund, for the highest annuity, he must distinctly state his readiness, or otherwise, to accept such an annuity as may be then available, on the understanding that if it be a smaller one, it will be raised at the next or earliest period of allotment to the maximum; provided no one senior to himself in the Service retires in the interval to supersede his claim for it. So, likewise, in the instance of a Member who is qualified by 24 years' service, or connection with the Fund, for the annuity of £140, he must distinctly state his readiness, or otherwise, to accept the smallest annuity if available, until such time as by the retirement of none above him his annuity may be raised to its full value, viz. £140. The Member qualified by 20 years' service, or connection with the Fund, will have to state merely his acquiescence, or otherwise, to accept the annuity of £112 on the full understanding that such is its maximum.

10. The allotment and adjustment of the annuities shall, agreeably to Articles 4, 5, and 6 of this Section, take place at a Meeting of the Committee, to be held in the first week of January of each year; and at no other period shall annuities be allotted, except in the instance provided for in Article 13.

11. Three months are allowed to a Subscriber in which to retire from the Service after an annuity, of which he has accepted the offer, has been allotted to him; and the commencement of the annuity shall be reckoned from the date of retirement; but in the instance of those who may have already retired, the annuity shall commence from the 1st of January of each year.

12. Any Subscriber transgressing the foregoing Rule, by failing to retire within the prescribed period, shall forfeit to the Fund the amount of one year's annuity.

13. In the event of one or more annuities remaining unaccepted at the annual period of allotment in January of each year, the annuity or annuities so refused shall be held in trust by the Service until the 30th April next following (the close of the official year), when, if not accepted, the value of the annuity or annuities in Company's Rupees, according to the Table, and estimated at the average age, shall be passed into the Reserved Fund.

* After resignation of the Service no subscriptions are levied: the minimum to be adjusted in accordance with Section VI.

14. All applications for payment of the annuity, if not made in person, shall be supported by the certificate of a Magistrate, that the annuitant was alive at the date to which he claims payment.

SECTION VI.

Of the Minima.

1. The following are the rates of minimum which must be paid by a Subscriber, otherwise qualified, before an annuity is granted to him, viz. for the annuity of £112, Rs. 6,400; for the annuity of £140, Rs. 8,000; and for the annuity of £168, Rs. 9,600.

2. The sums here stated shall consist of *bond fide* subscriptions and donations, exclusive of all interest.

3. Should any Member's subscriptions and donations exceed the prescribed minimum of the annuity which he may accept, the surplus shall become the property of the Fund, and in no case be refunded.

SECTION VII.

Of the Accounts and Investments of the Fund.

1. All subscriptions are received by Paymasters of Divisions, by whom they are lodged in the General Treasury to the credit of the Fund, bearing interest at 6 per cent. per annum. The Paymasters furnish the Committee monthly with an abstract of the sums so received.

2. From this abstract the sums set down against each Subscriber's name are entered in the Fund books to his individual credit, and a copy of this account, made up to the 30th April, is annually furnished him.

3. The Capital possessed by the Society is accounted for in the Fund's books under the heads of the "*Appropriated*," the "*Unappropriated*," and the "*Reserved*" Funds.

4. "*The Appropriated Fund*" is set apart for the payment of annuities. It is formed by withdrawing from the Unappropriated Fund such sums of money as represent the values of the annuities granted.

5. The Appropriated Fund thus formed shall be left without re-valuation or re-adjustment for a period of 10 years from the date of the last re-valuation; but in the mean time all its accrued interest, and the computed value of the annuities which may be granted in the interval, shall be carried to its credit; and all payments made to annuitants in the like interval shall be placed to its debit.

6. "*The Unappropriated Fund*" is the income of the Society. It is to be devoted to the offer of fresh annuities each year. After deducting from it the expenses of management, as well as incidental expenses, the surplus shall be passed to the credit of the Reserved Fund.

7. "*The Reserved Fund*" consists of Rupees 10,000, which has always been set aside for contingencies, and the yearly addition of the excess, or surplus, of the Unappropriated Fund. These sums shall bear interest at 6 per cent. per annum, and the amount shall be declared at the end of each official year. This Fund will be available, when required, for the re-valuation of the Annuities already given, for unexpected contingencies, and, as it accumulates, will provide for the accrued interests of Subscribers.

8. The valuation of annuities shall be computed in all cases by the annexed New Table, which is calculated upon improved data of the expectation of life, and at 2s. the Sicra Rupee.

9. A general statement of the Accounts of the Fund up to the 30th April of each year, showing the Cash Account,—the state of the Appropriated, the Unappropriated, and the Reserved Funds,—shall be prepared by the Accountant, and after having been approved of by the Committee, a copy shall be furnished to each Subscriber.

SECTION VIII.

Of withdrawing from the Fund.

1. A Member who is not bound by covenant to subscribe to the Fund may withdraw, forfeiting all claim and title to any refund whatever, or to any future benefit from it.

2. All Subscribers, whether bound by covenant or otherwise, who retire from the Service previous to the completion of 17 years' service, are held to withdraw from the Fund; and they likewise forfeit all claim and title to any refund whatever, or to any future benefit derivable from the Fund.

3. The noncompliance with any Regulation of the Fund, or the bringing under litigation any decision which has been passed in conformity with these Rules, shall exclude from all the benefits derivable from the Fund.

No Firm, or private individual, will be allowed to send more than 2 Tolas weight of Letters. Each Letter must be superscribed "Overland Express."
Overland Letters posted in England for despatch to Calcutta by the Express sent on the arrival of each Overland Mail, ought to be enclosed in coloured Envelopes, and superscribed "Per Express."

FOR DELIVERY IN CEYLON, sent via Madras ...

On Week-days there are three Postal deliveries in Bombay—at 8, 11, and 3 o'clock; on Sundays there is but one delivery—at Noon.
The Delivery Poonas are prohibited from taking charge of Letters for the purpose of posting them, or from going out of their course to deliver Letters, &c., and from delivering them without immediate payment of Postage. They must not give change, and if subjected to detention, they can refuse to deliver the Letters, &c., which will be sent out for delivery on the following day.
Post Masters can refuse to receive Letters, Papers, or Parcels, bearing the appearance of having been opened and re-closed, or tampered with, unless their damaged state is certified in writing by the sender; and are prohibited from knowingly receiving coin, bullion, precious stones, or jewels, for despatch.
The Post Office is not bound to give Receipts for Letters or Parcels. But if written Receipts for Parcels are presented, the Post Office Stamp will be affixed. Postage must be paid immediately on demand; if the party refuses to pay, his property is liable to be seized and sold, and his Letters, &c. detained in the Post Office.
Letters containing remittances or valuable documents ought to be registered, and well secured with sealing-wax. Letters fastened with gum or wax can be opened with impunity, without the slightest difficulty.

ALL communications respecting Change of Address should be made to the Deputy Post Master General, and not to the Post Master General.
All complaints requiring redress, such as surcharge of Postage, misaddressing, or delay in the delivery of Letters, &c., must be made to the Post Master General, accompanied by the Envelopes of the Letters referred to; and the number of the Delivery Poon should always be stated.

Letters, Packets, and Parcels once posted cannot be restored to the sender, except by an express order from Government; but Newspapers, Pamphlets, or Printed Papers can be returned on payment of the Postage which would have been charged had they been forwarded.
The Postage charged on any Letter or other article maliciously sent for the purpose of annoying the addressee may be remitted.

Letters, Papers, or Parcels which follow a party, or are re-addressed from one Station to another, or stopped in transit, are liable to Forward Postage.
Letters addressed to Public Officers, superscribed "On the Public Service," but not franked, and consequently sent Bearing, must be received by the addressee, and the Postage charged in a Contingent Bill to be sent to Government.

In addressing Letters, the Community should add the Number of the house, or street, or locality, where their correspondents reside, and should sign their surnames. This will materially assist the delivery of Letters, and help the Dead Letter Office, where Letters remain undisposed of because neither the addressee nor the senders (who omit to add their surnames) can be found.
English Postal Stamps are not recognised in India, nor are Indian Postage Stamps acknowledged in Great Britain.
